Customer Service Bulletin

CSB0004

Units Affected:

- | | |
|-------|--|
| B-15 | Serial Numbers: from AJYDJ60001 through AJYDJ60017
from AJYDJ70013 through AJYDJ70034
from AJYDJ80001 through AJYDJ80008 |
| B-15J | Serial Numbers: from AJZJJ70001 through AJZJJ70005 |
| B-15W | Serial Numbers: from AKAWJ70001 through AKAWJ70055 |

Concern:

The color labels at terminals **J40** (GREEN), and **J41** (ORANGE) are misidentified on the printed circuit board. Terminal J39 (BLACK) is correct and is of no concern. These are connect points for 3 wires from the audio output transformer secondary. These units **are** however wired correctly and do function properly. This could cause some confusion in servicing these units.

Corrective Action:

The proper wiring is as follows: (see drawing below)

GREEN wire to J 41; ORANGE wire to J 40;

(BLACK wire to J 39 no correction necessary.)
