

Malwarebytes Anti-Malware

Threats were removed!

Some threats were removed. From this point, be sure to:

- Restart the computer if you are asked to
- Run another scan after restarting if you were asked to
- Change your browser's home page and search engine settings
- Test to see if the problem is gone

To understand how you got infected and prevent future infections, see:

<http://www.thesafemac.com/mmg-defense/>

<http://www.thesafemac.com/arg/>

If you are still having a problem with ads after following all the removal instructions, see:

[What to do if your problem wasn't solved](#)

Next Steps
