Subject

Magnetic Channel numbering strips now available.

Information

In response to a number of comments about channel identification on the L3000 we have manufactured a set of magnetic channel markers that can be magnetically attached. The lighter colour marker strips can be attached to the front of the console above the fader tray and the second darker set to the rear of the console (see fig 1).

A set of these channel markers will be dispatched free of charge via distributors to all current Legend owners.

If you wish to order additional sets the part numbers are shown below:

HWR99-L3000M19
