

TECHNICAL SPECIFICATIONS

Power Output	276 Watts RMS @ 1.0% THD
Preamplifier gain measured at 1.0KHz. Tone controls maximum.	Channel I 32dB Channel II 39dB
Signal-to-noise ratio.	Channel I Gain min. -81dB Gain max. -58dB Channel II Gain Min. -81dB Gain max. -50dB
Minimum input voltage required for rated output. Tone controls adjusted for flat response at 1.0KHz. Volume adjusted maximum.	Channel I 50mv RMS Channel II 22mv RMS
Power output each output measured into a 3.0 ohm load at 1.0KHz. All tone controls maximum with bright switch in.	
Frequency response measured with tone controls adjusted for flat response.	± 3.0 dB 72Hz - 20KHz
