NOTE
 ▲ CERAMIC capacitor. All ceramic capacitors are above 25V rating.
 □ MYLAR capacitor. All mylar capacitors are above 50V rating.
 NP: NON POLAR capacitor.
 T: TANTALUM capacitor.

And all capacitors are ELECTROLYTIC capacitors, unless otherwise marked. Unless otherwise indicated: Resistance in Ω , K = K Ω , M = M Ω . Resistors, 1/4W or 1/8W, $\pm 5\%$ rating. Capacitance in pF - μ F - μ F.
