CAUTIONARY NOTES

Cautionary Notes

Before beginning the procedure, please read through this document. The matters described may differ according to the model.

About Disassembly Operations

- To prevent accidents, when performing disassembly of the unit, be sure to first switch off the power to the unit and unplug the power cord.

Part Replacement

When replacing components near the power-supply circuit or a heat-generating circuit (such as a circuit provided with a heat sink or including a cement resistor), carry out the procedure according to the instructions with respect to the part number, direction, and attachment position (mounting so as to leave an air gap between the component and the circuit board, etc.).

Parts List

A component whose part code is ***** cannot be supplied as a service part because one of the following reasons applies.

- Because it is supplied as an assembled part (under a different part code).
- Because a number of circuit boards are grouped together and supplied as a single circuit board (under a different part code).
- Because supply is prohibited due to copyright restrictions.
- Because reissuance is restricted.
- Because the part is made to order (at current market price).

Circuit Diagram

In the circuit diagram, "NIU" is an abbreviation for "NOT IN USE," and "UnPop" is an abbreviation for "Unpopulated." They both mean non mounted components. The circuit board and circuit board diagram show silk/screened indications, but no components are mounted.

For EU countries

- UK** This symbol indicates that in EU countries, this product must be collected separately from household waste, as defined in each region. Products bearing this symbol must not be discarded together with household waste.
- DE** Dieses Symbol bedeutet, dass dieses Produkt in EU-Ländern getrennt vom Hausmüll gesammelt werden muss gemäß den regionalen Bestimmungen. Mit diesem Symbol gekennzeichnete Produkte dürfen nicht zusammen mit den Hausmüll entsorgt werden.
- FR** Ce symbole indique que dans les pays de l'Union européenne, ce produit doit être collecté séparément des ordures ménagères selon les directives en vigueur dans chacun de ces pays. Les produits portant ce symbole ne doivent pas être mis au rebut avec les ordures ménagères.
- IT** Questo simbolo indica che nei paesi della Comunità europea questo prodotto deve essere smaltito separatamente dai normali rifiuti domestici, secondo la legislazione in vigore in ciascun paese. I prodotti che riportano questo simbolo non devono essere smaltiti insieme ai rifiuti domestici. Ai sensi dell'art. 13 del D.Lgs. 25 luglio 2005 n. 151.
- ES** Este símbolo indica que en los países de la Unión Europea este producto debe recogerse aparte de los residuos domésticos, tal como esté regulado en cada zona. Los productos con este símbolo no se deben depositar con los residuos domésticos.
- PT** Este símbolo indica que nos países da UE, a recolha deste produto deverá ser feita separadamente do lixo doméstico, de acordo com os regulamentos de cada região. Os produtos que apresentem este símbolo não deverão ser eliminados juntamente com o lixo doméstico.
- NL** Dit symbool geeft aan dat in landen van de EU dit product gescheiden van huishoudelijk afval moet worden aangeboden, zoals bepaald per gemeente of regio. Producten die van dit symbool zijn voorzien, mogen niet samen met huishoudelijk afval worden verwijderd.
- DK** Dette symbol angiver, at i EU-lande skal dette produktet opsamles adskilt fra husholdningsaffald, som defineret i hver enkelt region. Produkter med dette symbol må ikke smides ud sammen med husholdningsaffald.
- NO** Dette symbolet indikerer at produktet må behandles som spesialavfall i EU-land, iht. til retningslinjer for den enkelte regionen, og ikke kastes sammen med vanlig husholdningsavfall. Produktet som er merket med dette symbolet, må ikke kastes sammen med vanlig husholdningsavfall.

SE Symbolen anger att i EU-länder måste den här produkten kasseras separat från hushållsavfall, i enlighet med varje regions bestämmelser. Produkter med den här symbolen får inte kasseras tillsammans med hushållsavfall.

FI Tämä merkintä ilmaisee, että tuote on EU-maissa kerättävä erillään kotitalousjätteistä kunkin alueen voimassa olevien määritysten mukaisesti. Tällä merkinnällä varustettuja tuotteita ei saa hävittää kotitalousjätteiden mukana.

HU Ez a szimbólum azt jelenti, hogy az Európai Unióban ezt a terméket a háztartási hulladékotól elkülönítve, az adott régióban érvényes szabályozás szerint kell gyűjteni. Az ezzel a szimbólummal ellátott termékek nem szabad a háztartási hulladék közé dobni.

PL Symbol oznacza, że zgodnie z regulacjami w odpowiednim regionie, w krajuach UE produktu nie należy wyrzucać z odpadami domowymi. Produktów opatrzonych tym symbolem nie można utylizować razem z odpadami domowymi.

CZ Tento symbol udává, že v zemích EU musí být tento výrobek sbíráno odděleně od domácího odpadu, jak je určeno pro každý region. Výrobky nesoucí tento symbol se nesmí vyhazovat spolu s domácím odpadem.

SK Tento symbol vyjadruje, že v krajinách EÚ sa musí zberať tohto produktu vykonávať oddelenie od domového odpadu, podľa nariadení platných v konkrétnej krajiné. Produkty s týmto symbolom sa nesmú vyhazovať spolu s domovým odpadom.

EE See sümbol näitab, et EL-i maades tuleb see toode olempurjist eraldi koguda, nii nagu on igas piirkonnas määratletud. Selle sümboliga märgitud tooteid ei töhi ära visata koos olmeprügiga.

LT Šis simbolis rodo, kad ES šalyse šis produktas turi būti surenkamas atskirai nuo būtiniu atliekių, kaip nustatyta kiekviename regione. Šiuo simboliu paženklinti produktai neturi būti išmetami kartu su būtinėmis atliekomis.

LV Šis simbols norāda, ka ES valstis šo produktu jāievāc atsevišķi no mājsaimniecības atkritumiem, kā noteikts katrā reģionā. Produktus ar šo simboli nedrīkst izmest kopā ar mājsaimniecības atkritumiem.

SI Ta simbol označuje, da je treba proizvod v državah EU zbirati ločeno od gospodinjskih odpadkov, tako kot je določeno v vsaki regiji. Proizvoda s tem znakom ni dovoljeno odlagati skupaj z gospodinjskimi odpadki.

GR Το σύμβολο αντό υποδηλώνει ότι στις χώρες της Ε.Ε. το συγκεκριμένο προϊόν πρέπει να συλλέγεται χωριστά από τα υπόλοιπα οικιακά απορρίμματα, σύμφωνα με όσα προβλέπονται σε κάθε περιοχή. Τα προϊόντα που φέρουν το συγκεκριμένο σύμβολο δεν πρέπει να απορρίπτονται μαζί με τα οικιακά απορρίμματα.

For China

有关产品中所含有害物质的说明

本资料就本公司产品中所含的特定有害物质及其安全性予以说明。

本资料适用于2007年3月1日以后本公司所制造的产品。

环保使用期限

此标志适用于在中国国内销售的电子信息产品，表示环保使用期限的年数。所谓环保使用期限是指在自制造日起的规定期限内，产品中所含的有害物质不致引起环境污染，不会对人身、财产造成严重的不良影响。

环保使用期限仅在遵照产品使用说明书，正确使用产品的条件下才有效。

不当的使用，将会导致有害物质泄漏的危险。

产品中有毒有害物质或元素的名称及含量

部件名称	有毒有害物质或元素					
	铅(Pb)	汞(Hg)	镉(Cd)	六价铬(Cr(VI))	多溴联苯(PBB)	多溴二苯醚(PBDE)
外壳(壳体)	×	○	○	○	○	○
电子部件(印刷电路板等)	×	○	×	○	○	○
附件(电源线、交流适配器等)	×	○	○	○	○	○

○：表示该有毒有害物质在该部件所有均质材料中的含量均在 SJ/T11363-2006 标准规定的限量要求以下。

×：表示该有毒有害物质至少在该部件的某一均质材料中的含量超出 SJ/T11363-2006 标准规定的限量要求。

因根据现有的技术水平，还没有什么物质能够代替它。

USING THE UNIT SAFELY

INSTRUCTIONS FOR THE PREVENTION OF FIRE, ELECTRIC SHOCK, OR INJURY TO PERSONS

About WARNING and CAUTION Notices

 WARNING	Used for instructions intended to alert the user to the risk of death or severe injury should the unit be used improperly.
 CAUTION	<p>Used for instructions intended to alert the user to the risk of injury or material damage should the unit be used improperly.</p> <p>* Material damage refers to damage or other adverse effects caused with respect to the home and all its furnishings, as well to domestic animals or pets.</p>

About the Symbols

	The  symbol alerts the user to important instructions or warnings. The specific meaning of the symbol is determined by the design contained within the triangle. In the case of the symbol at left, it is used for general cautions, warnings, or alerts to danger.
	The  symbol alerts the user to items that must never be carried out (are forbidden). The specific thing that must not be done is indicated by the design contained within the circle. In the case of the symbol at left, it means that the unit must never be disassembled.
	The  symbol alerts the user to things that must be carried out. The specific thing that must be done is indicated by the design contained within the circle. In the case of the symbol at left, it means that the power-cord plug must be unplugged from the outlet.

ALWAYS OBSERVE THE FOLLOWING

WARNING

- Do not open (or modify in any way) the unit or its AC adaptor.

- Do not attempt to repair the unit, or replace parts within it (except when this manual provides specific instructions directing you to do so). Refer all servicing to your retailer, the nearest Roland Service Center, or an authorized Roland distributor, as listed on the "Information" page.

- Never install the unit in any of the following locations.
 - Subject to temperature extremes (e.g., direct sunlight in an enclosed vehicle, near a heating duct, on top of heat-generating equipment); or are
 - Damp (e.g., baths, washrooms, on wet floors); or are
 - Exposed to steam or smoke; or are
 - Subject to salt exposure; or are
 - Humid; or are
 - Exposed to rain; or are
 - Dusty or sandy; or are
 - Subject to high levels of vibration and shakiness.

- Make sure you always have the unit placed so it is level and sure to remain stable. Never place it on stands that could wobble, or on inclined surfaces.

- Be sure to use only the AC adaptor supplied with the unit. Also, make sure the line voltage at the installation matches the input voltage specified on the AC adaptor's body. Other AC adaptors may use a different polarity, or be designed for a different voltage, so their use could result in damage, malfunction, or electric shock.

- Use only the supplied power-supply cord. Also, the supplied power cord must not be used with any other device.

- Do not excessively twist or bend the power cord, nor place heavy objects on it. Doing so can damage the cord, producing severed elements and short circuits. Damaged cords are fire and shock hazards!

WARNING

- This unit, in combination with an amplifier and headphones or speakers, may be capable of producing sound levels that could cause permanent hearing loss. Do not operate for a long period of time at a high volume level, or at a level that is uncomfortable. If you experience any hearing loss or ringing in the ears, you should immediately stop using the unit, and consult an audiologist.

- Never allow foreign objects (e.g., flammable material, coins, pins) or liquids (e.g., water or juice) to enter this unit. Doing so may cause short circuits, faulty operation, or other malfunctions.

- I immediately turn the power off, remove the AC adaptor from the outlet, and request servicing by your retailer, the nearest Roland Service Center, or an authorized Roland distributor, as listed on the "Information" page when:
 - The AC adaptor, the power-supply cord, or the plug has been damaged; or
 - If smoke or unusual odor occurs
 - Objects have fallen into, or liquid has been spilled onto the unit; or
 - The unit has been exposed to rain (or otherwise has become wet); or
 - The unit does not appear to operate normally or exhibits a marked change in performance.

- In households with small children, an adult should provide supervision until the child is capable of following all the rules essential for the safe operation of the unit.

- Protect the unit from strong impact.
(Do not drop it!)

WARNING

- Do not force the unit's power-supply cord to share an outlet with an unreasonable number of other devices. Be especially careful when using extension cords—the total power used by all devices you have connected to the extension cord's outlet must never exceed the power rating (watts/ampères) for the extension cord. Excessive loads can cause the insulation on the cord to heat up and eventually melt through.
- Before using the unit in a foreign country, consult with your retailer, the nearest Roland Service Center, or an authorized Roland distributor, as listed on the "Information" page.
- Do NOT play a CD-ROM disc on a conventional audio CD player. The resulting sound may be of a level that could cause permanent hearing loss. Damage to speakers or other system components may result..

**CAUTION**

- The unit and the AC adaptor should be located so their location or position does not interfere with their proper ventilation.
- Always grasp only the plug on the AC adaptor cord when plugging into, or unplugging from, an outlet or this unit.
- At regular intervals, you should unplug the AC adaptor and clean it by using a dry cloth to wipe all dust and other accumulations away from its prongs. Also, disconnect the power plug from the power outlet whenever the unit is to remain unused for an extended period of time. Any accumulation of dust between the power plug and the power outlet can result in poor insulation and lead to fire.
- Try to prevent cords and cables from becoming entangled. Also, all cords and cables should be placed so they are out of the reach of children.
- Never climb on top of, nor place heavy objects on the unit.
- Never handle the AC adaptor or its plugs with wet hands when plugging into, or unplugging from, an outlet or this unit.
- Before moving the unit, disconnect the AC adaptor and all cords coming from external devices.
- Before cleaning the unit, turn off the power and unplug the AC adaptor from the outlet (see p. 20).
- Whenever you suspect the possibility of lightning in your area, disconnect the AC adaptor from the outlet.

**Energy saving function**

The BK-5 has an Auto Off function, which automatically switches off the power after a certain amount of time has passed without any buttons being operated.

Shortly before the BK-5 shuts down automatically, the display starts counting down the seconds.

If you want to keep using the BK-5 at this stage, press any button.

You can also disable the "Auto Off" function. For more about the Auto Off function, refer to p.69 on owner's manual.

When the BK-5 is turned off by the "Auto Off" function, the [POWER] button's position doesn't change, which means that you need to press it once, wait a few seconds, then press it again to switch the BK-5 back on.

WARNING – To reduce the risk of fire or electric shock, do not expose this device to rain or moisture.

This product complies with the requirements of European Directive EMC 2004/108/EC.
Dieses Produkt entspricht der europäischen Richtlinie EMC 2004/108/EC.
Ce produit est conforme aux exigences de la directive européenne EMC 2004/108/EC.
Questo prodotto è conforme alle esigenze della direttiva europea EMC 2004/108/EC.
Este producto cumple con la directriz EMC 2004/108/EC de la CE.
Dit product beantwoordt aan de richtlijn EMC 2004/108/EC van de Europese Unie.

For EU countries

FEDERAL COMMUNICATIONS COMMISSION RADIO FREQUENCY INTERFERENCE STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Unauthorized changes or modification to this system can void the users authority to operate this equipment.
This equipment requires shielded interface cables in order to meet FCC class B Limit.

For the USA

NOTICE

This Class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

AVIS

Cet appareil numérique de la classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

For C.A. US (Proposition 65)

WARNING

This product contains chemicals known to cause cancer, birth defects and other reproductive harm, including lead.

For the UK

IMPORTANT: THE WIRES IN THIS MAINS LEAD ARE COLOURED IN ACCORDANCE WITH THE FOLLOWING CODE.

BLUE: NEUTRAL
BROWN: LIVE

As the colours of the wires in the mains lead of this apparatus may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:
The wire which is coloured BLUE must be connected to the terminal which is marked with the letter N or coloured BLACK.
The wire which is coloured BROWN must be connected to the terminal which is marked with the letter L or coloured RED.
Under no circumstances must either of the above wires be connected to the earth terminal of a three pin plug.

For the USA

DECLARATION OF CONFORMITY Compliance Information Statement

Model Name : BK-5
Type of Equipment : Backing Keyboard
Responsible Party : Roland Corporation U.S.
Address : 5100 S. Eastern Avenue, Los Angeles, CA 90040-2938
Telephone : (323) 890-3700

SPECIFICATIONS

Display type	
Display	Graphic LCD, 160 x 160 dots, backlit
Keyboard	
Keyboard	61 velocity sensitive keys
Sound Source	
Max. Polyphony	128 voices (GM2/GS/XG Lite compatible)
Sounds	1,172 tones 60 Drum Sets
Multitimbral parts	3 keyboard parts (UP1, UP2, LWR) + 16 song parts
Master Tuning	415.3~466.2 Hz
Key Control (Transpose)	-6~+5 in semitones (for audio/MIDI data)
Tempo change	20~250 BPM for SMF and rhythms 75~125% for mp3 and WAV files
Part mute functions	TRACK MUTE: Rhythms, SMF CENTER CANCEL: mp3, WAV, AUDIO INPUT signals
Effects	
keyboard parts (UP1, UP2, LWR) Rhythms/SMF section	Reverb: 8 types (selectable via Makeup Tools) Chorus: 8 types (selectable via Makeup Tools) MFX: 84 types for keyboard parts (selectable via Tone Part MFX) A & B for rhythm and SMF section (selectable via Makeup Tools) Parametric EQ: 6 presets + 1 User memory Multi-band compressor: 6 presets + 1 User memory
Rhythm section	
Rhythms	305 in 6 "Rhythm" families (localized rhythms for specific areas are included in the WORLD 1 and WORLD 2 families)
Rhythm Composer	Internal Rhythm Composer, SMF-to-Rhythm Converter provided as PC application (Windows) on the bundled CD-ROM
One Touch memories	4 programmable registrations per rhythm
Rhythm Makeup Tools	Instrument-oriented editing
Songs	
Real-time player	SMF (Format 0/1), KAR, mp3, WAV, mp3+CDG
Song chord extractor	Automatic chord detection for SMF files
SMF Makeup Tools	Instrument-oriented editing
Performance Memories	
Performance Lists	Unlimited number (storage on USB memory) Over 500 "Music Assistant" memories (internal memory) 5 "Factory Song" memories (internal memory)
Performance memories per List	Max. 999
Search function	Quick location of SMF, audio and JPG files on the connected USB memory
Demo	
Demo	Yes

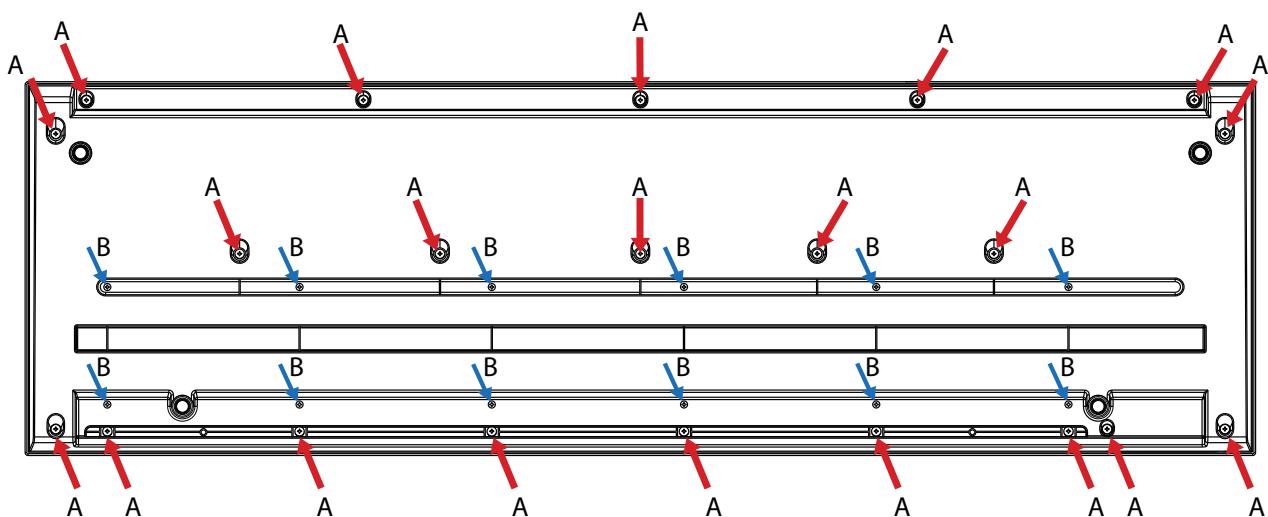

Recording	
Media	USB Flash memory
Save format	Audio files: WAV (44.1 kHz, 16-bit linear)
Video	
Lyrics	SMF, mp3/WAV, mp3+CDG
Slide shows	Picture folder linked to songs (recommended resolution: 512 x 384 or 1024 x 768 pixels)
Panel controls	
Knob	VOLUME
Rotary encoder	Data dial
Connectors	
PHONES jack x2	Stereo 1/4" phone type
AUDIO INPUT jack	Stereo miniature phone type
AUDIO OUTPUT jacks (L/Mono, R/Mono)	1/4" phone type
USB ports	USB COMPUTER connector (Type B, reception and transmission of MIDI data) USB MEMORY (Type A, data storage devices)
MIDI connectors	MIDI IN, MIDI OUT (Visual Control function)
VIDEO OUTPUT jack	RCA-type (CVBS, PAL or NTSC – selectable)
Foot pedal jacks	HOLD, SWITCH/EXPRESSION (programmable)
General specifications	
Speakers	2x 10 cm
Rated power output	2x 12 W RMS
Power supply	AC adaptor (PSB-7U adaptor)
Power consumption	1100mA
Auto Off function	Off, 10min, 30min, 240min
Dimensions	Without music rest: 1044 (W) x 317 (D) x 129 (H) mm 41-1/8 (W) x 12-1/2 (D) x 5-1/8 (H) inches Including music rest: 1044 (W) x 317 (D) x 301 (H) mm 41-1/8 (W) x 12-1/2 (D) x 11-7/8 (H) inches
Weight	7.5 kg (excluding AC adaptor and music rest) 16 lbs 9 oz (excluding AC adaptor and music rest)
Supplied Accessories	
	Owner's Manual, PSB-7U AC adaptor, Power cord (for connecting the AC adaptor), Music rest, CD-ROM (Style Converter 4.0, USB driver)
Options	
USB	USB flash memory (M-UF-series)
Pedals	DP-series/BOSS FS-5U foot switch Roland EV-series expression pedal

Note: In the interest of product improvement, the specifications and/or appearance of this unit are subject to change without prior notice.

Style Converter 4 system requirements

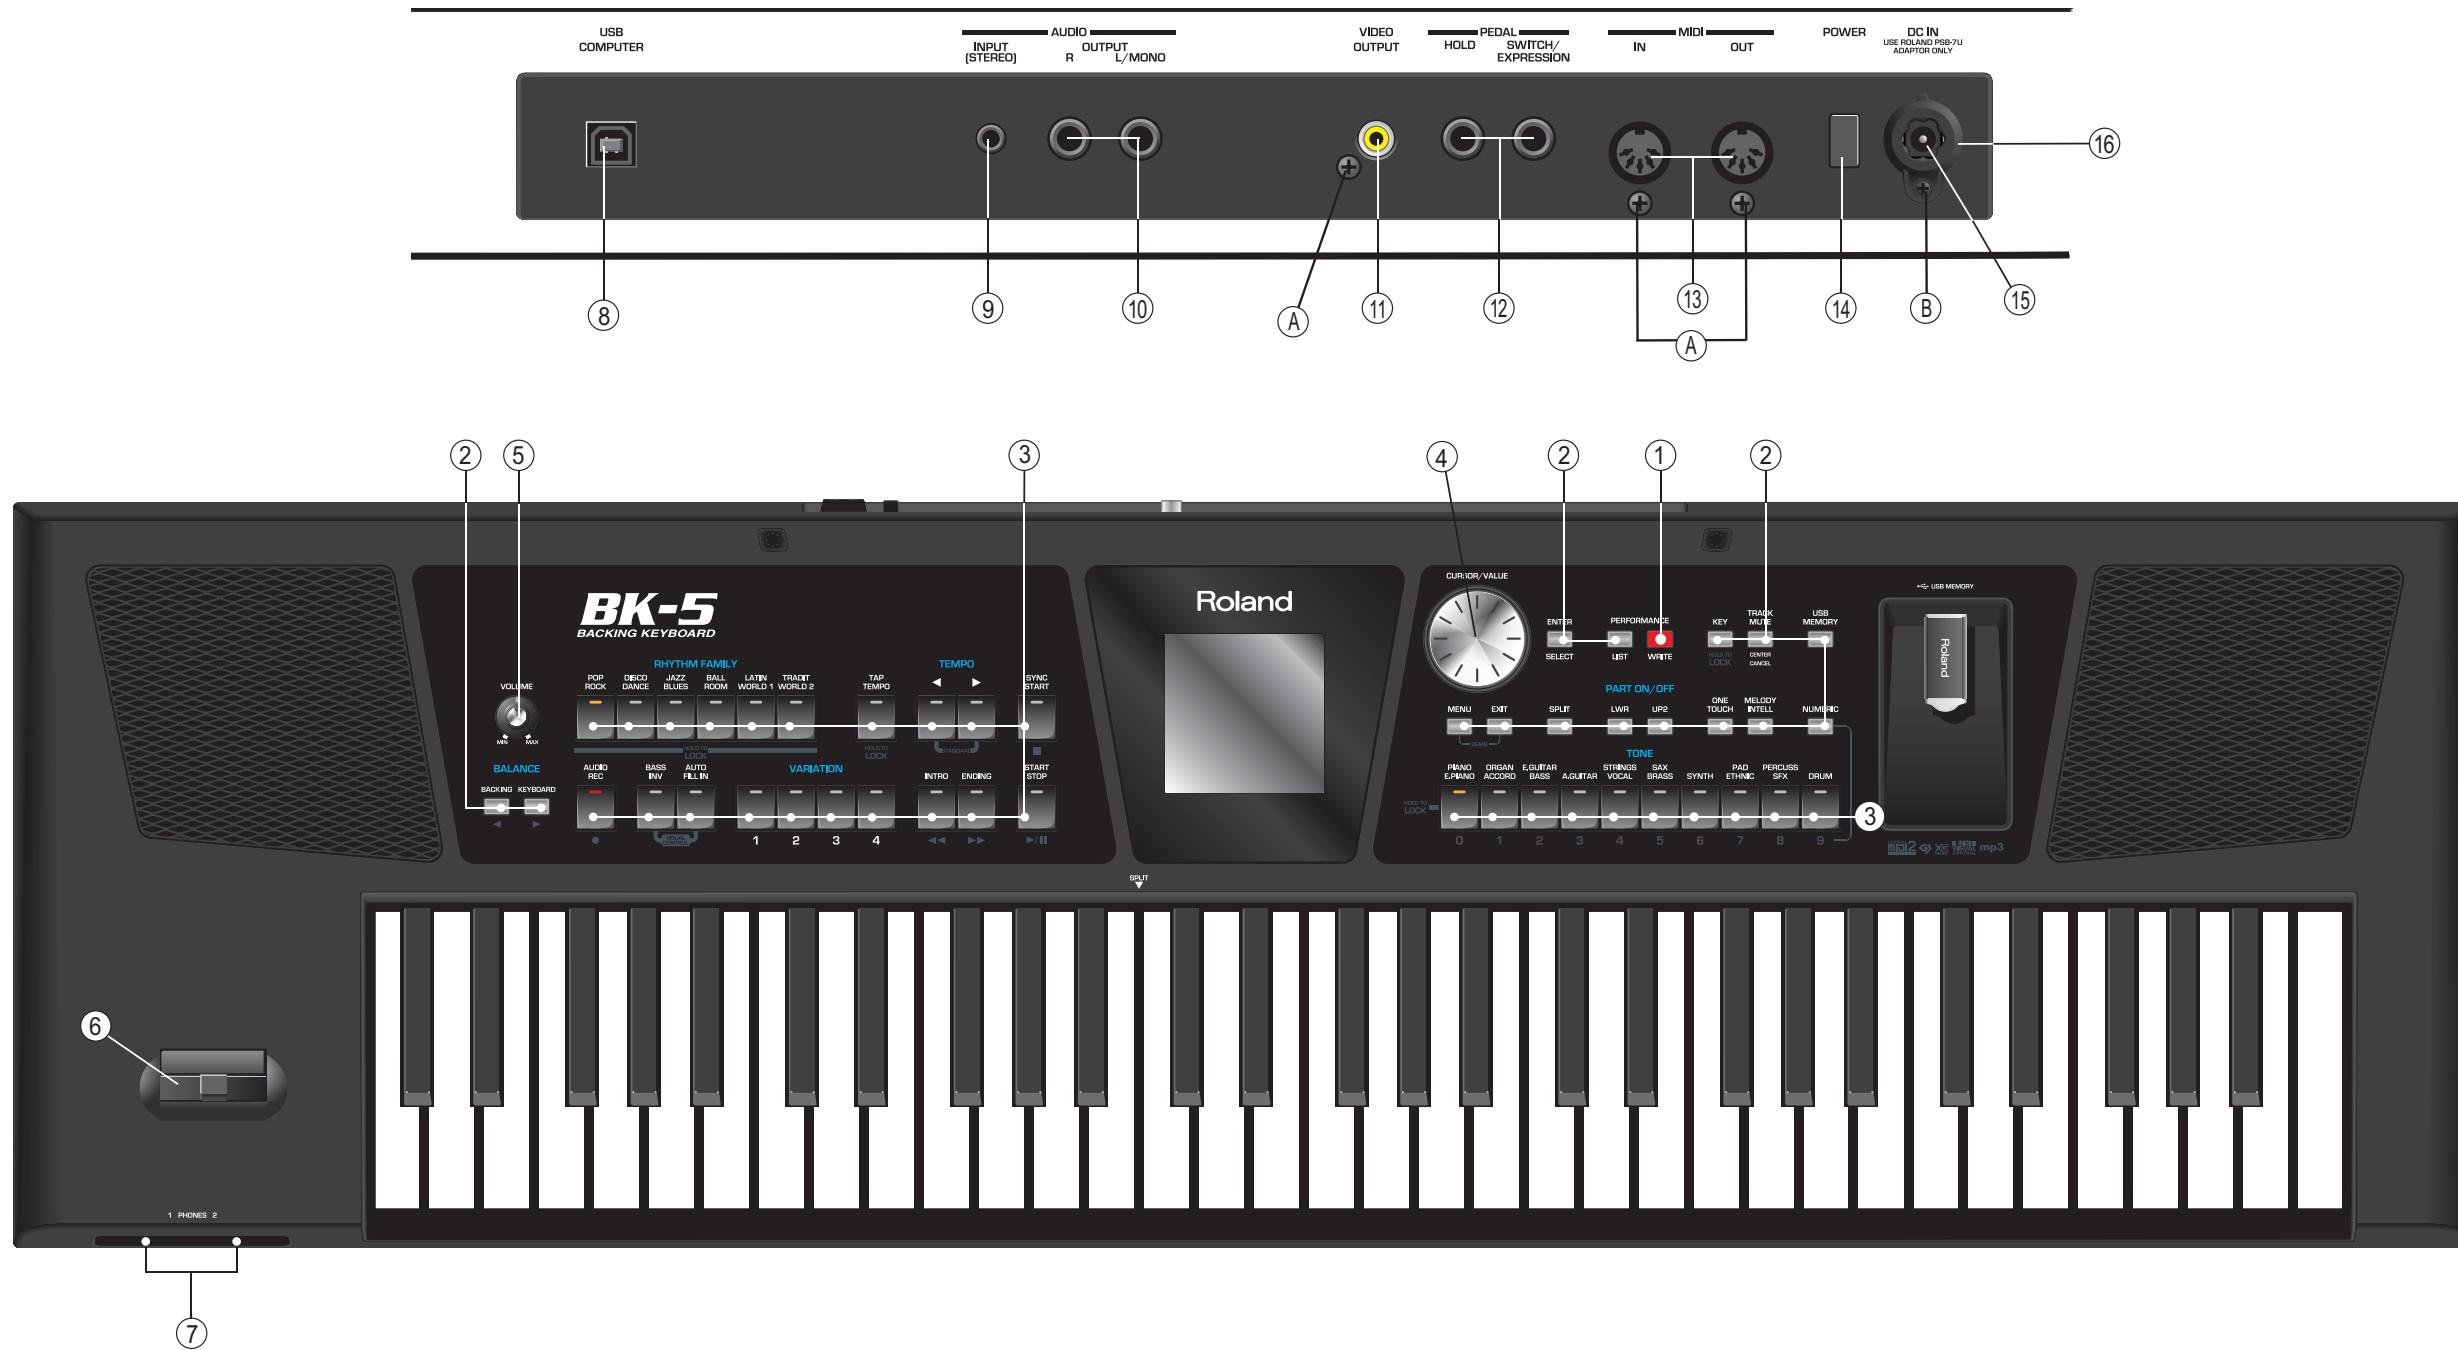

Operating system	Microsoft® Windows® XP Microsoft® Windows® Vista® * This does not work with the 64-bit edition of Windows Vista® Microsoft® Windows® 7

How to replace cable #7782814000

Note: If you have to change "Cable #7782814000" we suggest to order also "SPONGE CUSHION SPEAKER CABLES BK-5/OR #K2268241"

- 1) Wrap the cable with their sponge cushions speaker cables as showed here under :

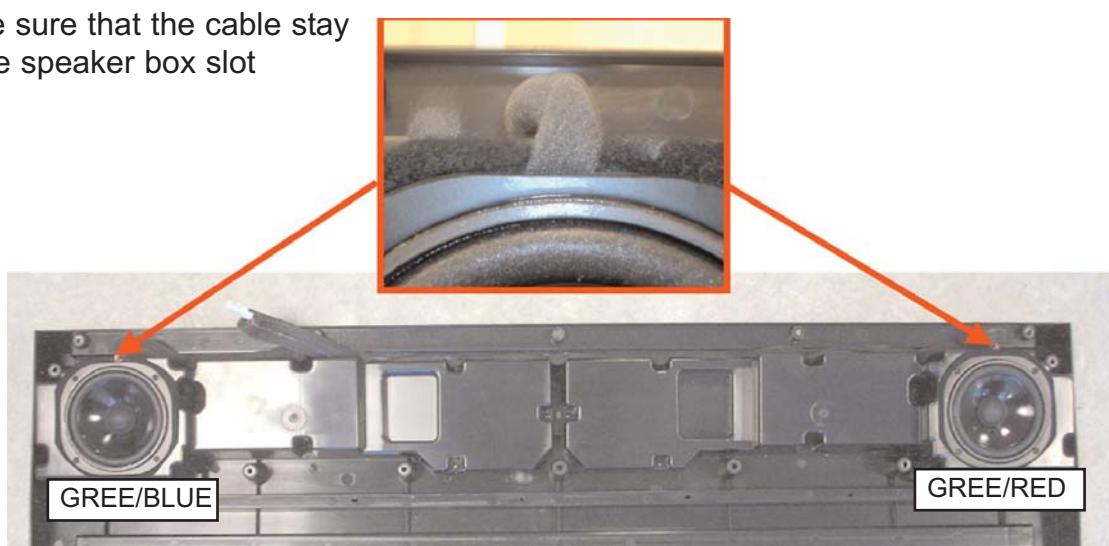

- 2) Solder the cables onto the Right and Left speakers #04125312

- 3) Place the Right and Left Speakers and place the cable through the cut on the felt.cushion. speaker #04128390 as showed here under :

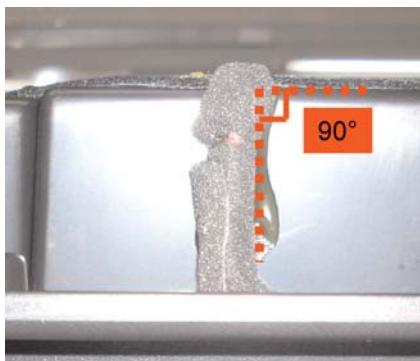

Make sure that the cable stay inside speaker box slot

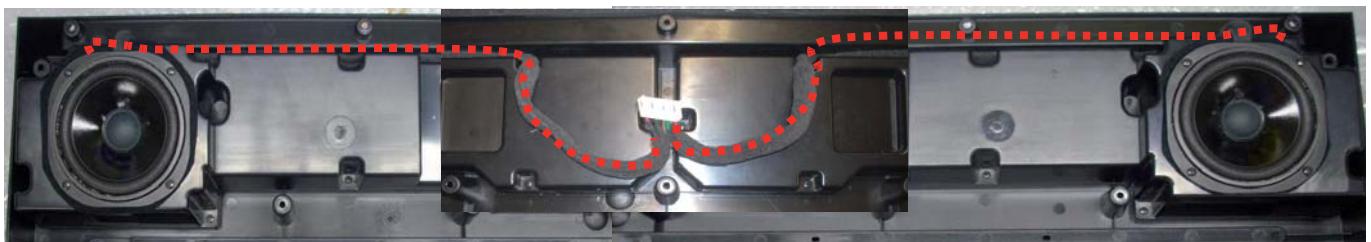

-
- 4) Add **hot melt** between the cable and speaker box slot (right and left side).

- 5) Bend down the cable with 90° angle and then place the cables in the clearance between the speaker boxes and the rear side of bottom cabinet.

Make sure that the cables are in this position.

How to replace the ADHESIVE FELT and NITTO ACETATE TAPE #5 code #40122612 on Bottom Case and Speaker box R / L

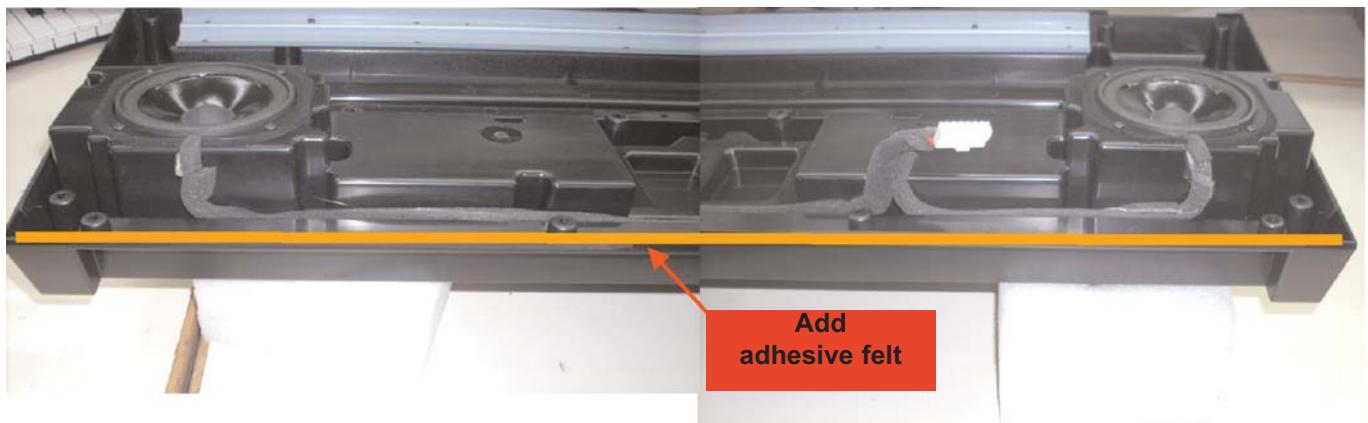

When you substitute the BOTTOM CASE #04017645 you must replace also the code #K2248209 SHORT ADHESIVE FELT MM 290x10 TH. 1 as showed here under :

NOTE:
bend adhesive felt

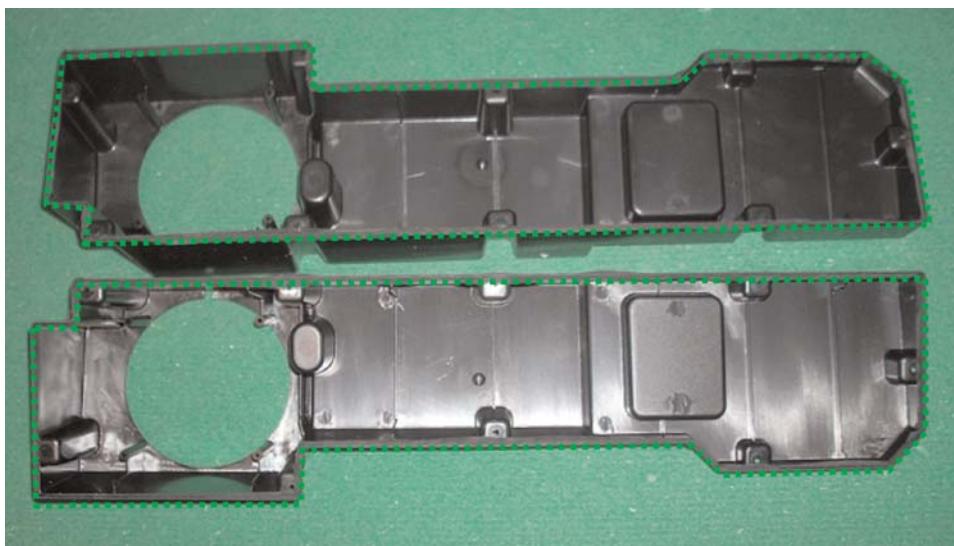

When you apply adhesive felt pay attention not to go beyond the reference mark.

When applying black felt #K2248208 respect the reference mark.

Apply the acetate tape along the whole profile of the Left and Right Speaker Boxes.

Chek adhesion on corner.

PARTS LIST BK-5

SAFETY PRECAUTIONS:
The parts marked **A** have
Safety-Related characteristics. Use
only listed parts for replacement.

Due to one or more of the following reasons,
parts with part number ~~xxxxxx~~ cannot be supplied as service parts:
 ✓ Part supplied only as a component in a complete assembly
 ✓ Copyright does not permit the part to be supplied
 ✓ Part is sold exclusively

NOTE: The parts marked **#** are new (Initial parts). The description "QTY" means a necessary number of the parts per one product.

NOTE:

The parts marked "**#**" are new (Initial Parts).

A The parts marked "**A**" are new (Initial Parts), for RES but already used by RJA

⚠ The parts marked **⚠** have Safety - Related characteristics.
Use only listed parts for replacement.

<< EMI >> Component for EMC.

Note : Replacement should be made on a unit basis. No replacements available for individual parts.
Replacement only be a unit.

Verifying the Version Numbers

1. Press the [MENU] button
 2. Select GLOBAL and press the [ENTER] button
 3. Select UTILITY and press the [ENTER] button
 4. Scroll up to the end of the list to reach the Version Info Label.
- The following screen will show the Version number.

Performing a Factory Reset

The following function allows you to recall the BK-5 original factory settings. This has no effect on the data stored on a USB memory.

You can carry out a factory reset in two ways:

- A. automatically at the end of the Test Mode, refer to Test Mode - 18. Factory Reset (page 41)
- B. with the following procedure:

1. Press the [MENU] button.

The display changes to:

2. Rotate the [CURSOR/VALUE] dial to select the "Factory Reset" entry, then press the [ENTER/SELECT] button.

3. Rotate the [CURSOR/VALUE] dial to select "YES", then press the [ENTER/SELECT] button to load the factory settings. Select "NO" to return to the previous display page without loading the factory settings.
- A confirmation message informs you that the BK-5 has been initialized.

Updating the System

Attention:

during the updating system a factory reset will be automatically carried out.

Required Items:

- USB memory
- PC (Windows XP)
- System update file (available from the Service-Net).

Procedure:

1. Decompress the System update file on a personal computer. When decompressed, a folder appears, it contains 5 or 6 files*:

- update
- rom.bin
- Release.txt
- Waverom.bin *
- Startup
- PROGRAM.BIN

2. First delete all existing files from the USB memory then copy the above content (5 files) to the USB memory's root directory.

3. After verifying that the BK-5 power is off, plug the USB memory into the USB port.

4. Keeping the [WRITE] button pressed, power on the BK-5 .

Hold the WRITE Button until the "Update Mode:" text appears on the top line of the LCD of BK-5.

5. Wait until the end of the update; the display will show "SUCCESS".

Note: The update procedure takes about 20 minutes.

6. Switch off the BK-5.

7. Execute a Factory Reset.

Attention:

During the update procedure you must not:

- a. switch off the BK-5
- b. disconnect the Usb Memory

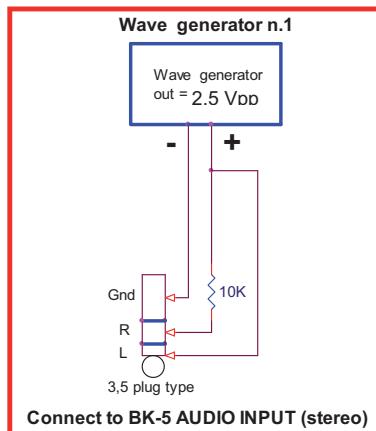

TEST MODE

* user settings are lost when a Test Mode operation is executed.

Required Items

- OSCILLOSCOPE
- NOISE METER
- WAVEFORM GENERATOR
- MONITOR LCD (i.e. 7 inch) with S-VIDEO input and with automatic PAL / NTSC selection
- HEADPHONES
- ROLAND DP-8 PEDAL SWITCH
- ROLAND EV-5 EXPRESSION PEDAL
- USB MEMORY (like ROLAND M-UF2G)
- PSB-7U AC/DC Universal Adapter + AC CORD
- USB CABLE to connect BK-5 **USB COMPUTER** socket to BK-5 **USB MEMORY** socket
- MIDI CABLE to connect BK-5 **MIDI IN** socket to BK-5 **MIDI OUT** socket
- 2 x Mono Audio Cables to connect BK-5 **OUTPUT L/R** mono sockets (6,3mm) to oscilloscope (BNC)
- Stereo Audio Cables to connect BK-5 **PHONES** stereo socket (6,3mm) to oscilloscope (BNC)
- Stereo Audio Cables to connect BK-5 **EXT INPUT** socket (3,5mm) to Waveform generator (refer to SCHEME 1)
- Mono Audio Cables to connect BK-5 **OUTPUT L/R** mono sockets (6,3mm) to Noise Meter input socket (BNC)
- Empty Jack for NOISE CHECK
- Video Cable to connect BK-5 **VIDEO OUTPUT** sockets to Monitor's **VIDEO IN** socket

SCHEME 1

Setting:

Connect the PSB-7U adaptor to the BK-5 **DC IN** socket.
 Connect the Video Cables from BK-5 **VIDEO OUTPUT** to Monitor's **VIDEO IN**.
 Connect the two Mono Audio Cables from BK-5 **OUTPUT L/R** to the oscilloscope.

**Entering the Test Mode**

Keeping the **[VARIATION 4]**, **[INTRO]** and **[ENDING]** buttons pressed, power on the BK-5 . Wait until "Version" test is displayed.

Exiting the Test Mode

Turn the power off.

Moving (forced) between Test Items

To skip to the next test item: keep the **[POP ROCK]** button pressed and then press **TEMPO [+]** button.
 To return to the previous test item: keep the **[POP ROCK]** button pressed and then press **TEMPO [-]** button.

Test Items

1. Software version check (pg 30)
2. Switch and led check (pg 31)
3. Encoder check (pg 31)
4. Switch pedal / Expression pedal check (pg 32)
5. ADC input check (pg 33)
6. MIDI IN/OUT check (pg 33)
7. USB MIDI check (pg 33)
8. USB MEMORY check (pg 34)
9. LCD check (pg 34)
10. Video out check (pg 35)
11. Keyboard check (pg 35)
12. Speakers check (pg 36)
13. Phones socket check (pg 37)
14. Output L/R sockets check (pg 38)
15. Audio Input socket check (pg 39)
16. Noise check (pg 40)
17. Memories and Devices check (pg 41)
18. Factory Reset and Auto Power off check (pg 41)

1. Software version check

The display shows:

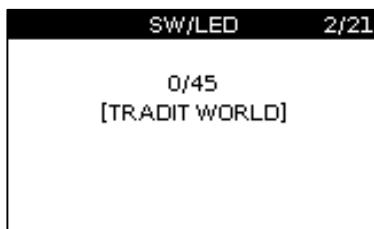

VERSION	1/21
Model:	BK-5
Program:	0.07 (007)
Boot:	1.00 (001)
Data 0:	0.03
Data 1:	0.03
Wave:	0.06
Subcpu:	1.03 (010)

Press [START STOP] to Next.

Be sure that the Pitch Bender and Modulation bar are in rest position, then press the **[START/STOP]** button to go to next test.

2. Switch and LED check

The display shows:

The display will show the switch to press and the LED associated to it will blink.

For each switch pressed the relative LED will be lit.

At the end of the sequence the test will automatically go to the next test

The display shows:

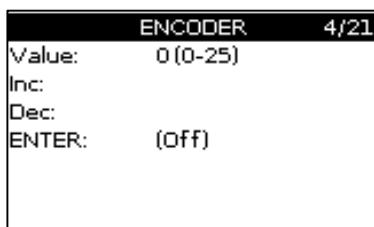

The display will show the switch to press and the LED associated to it will blink.

For each switch pressed the relative LED will be lit.

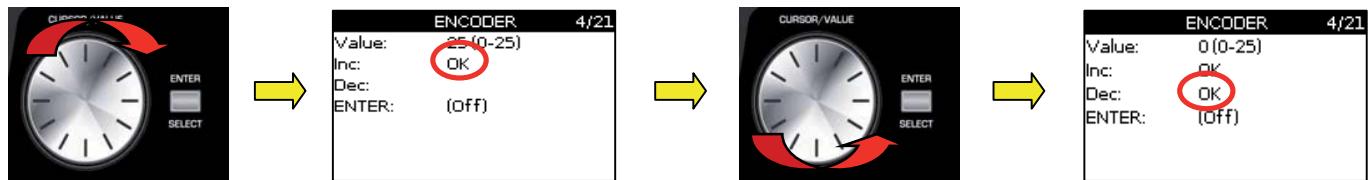

At the end of the sequence the test will automatically go to the next test

3. Encoder check

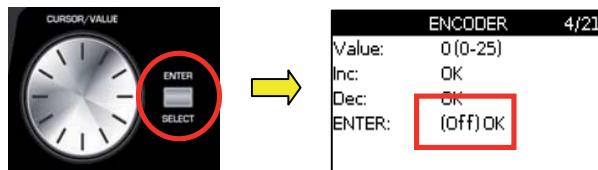

The display shows:

1. Rotate the [CURSOR/VALUE] dial to right (clockwise) and make sure the value on the display changes from **0** to **25**.
2. Rotate the [CURSOR/VALUE] dial to left (counter clockwise) and make sure the value on the display changes from **25** to **0**.

3. Push the [ENTER] button and make sure the display shows **Switch: (On)**.
4. Release the [ENTER] button and make sure the display shows **Switch: (Off) OK**.

5. Press [START/STOP] button to go to next test.

4. Switch pedal / Expression pedal check

The display shows:

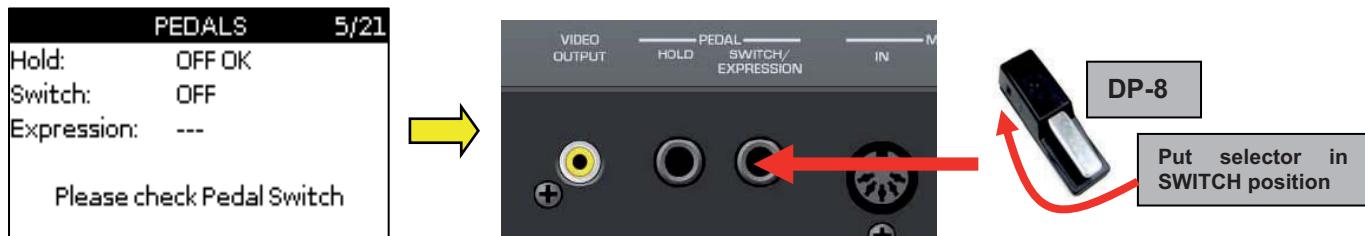

PEDALS	5/21
Hold:	OFF
Switch:	---
Expression:	---
Please check Pedal Hold	

1. Connect the DP-8 to the BK-5 **PEDAL- HOLD** input .

2. Verify that the display shows "Hold: OFF".

3. Press the DP-8 Pedal and verify that the display shows "Hold: ON".
4. Release the DP-8 Pedal and make sure the display shows "Hold: OFF OK".
5. Connect the DP-8 to BK-5 **PEDAL - SWITCH/EXPRESSION** input.

6. Verify that the display shows "Switch: OFF".

7. Press the DP-8 Pedal and verify that the display shows "Switch: ON".
8. Release the DP-8 Pedal and make sure the display shows "Switch: OFF OK".
9. Remove the DP-8 Pedal and connect the EV-5 pedal to BK-5 **PEDAL SWITCH/EXPRESSION** input.

10. Move the EV-5 Pedal and verify that the value shown gradually changes from **000** (minimum) to **127** (maximum). When both extreme values are reached the display will show **OK**.

PEDALS	5/21
Hold:	OFF OK
Switch:	OFF OK
Expression:	127
Please check Pedal Expression	

11. Press **[START/STOP]** button to go to next test.

5. ADC input check

The display shows:

ADC	6/21
Volume:	064
Bender:	064
Modulation:	000

1. Rotate the **MASTER VOL** potentiometer and verify that the value gradually change from **000** (minimum) to **127** (maximum).
2. Check when the **BENDER** lever is in the rest position the display shows “**Bender: 064**”
3. Move **BENDER** lever and check the relative value shown gradually changes from **000** (lever on the left side) to **127** (lever on the right side).
4. Verify that when the **MODULATION** lever is in the rest position the display shows “**Modulation: 000**”.
5. Move **MODULATION** lever and verify that the relative value shown gradually changes from **000** (rest position) to **127** (forward position).

ADC	6/21
Volume:	127 OK
Bender:	064 OK
Modulation:	000 OK

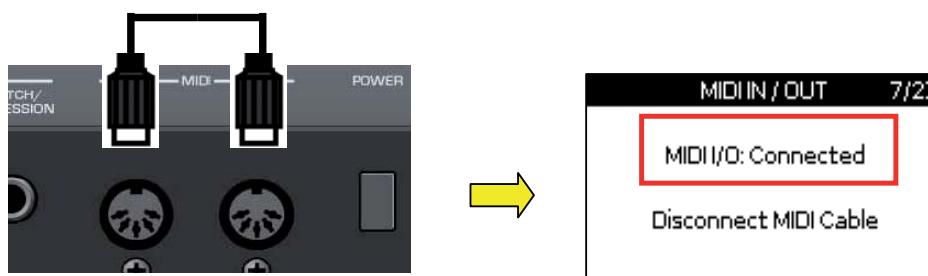

6. Press **[START/STOP]** button to go to next test.

6. MIDI IN/OUT check

The display shows:

MIDI IN / OUT	7/21
MIDI IN/OUT:	-----
Connect MIDI Cable	

1. Connect the MIDI cable between BK-5 **MIDI IN** and **MIDI OUT**.
2. Verify that the display shows “**Connected**”.

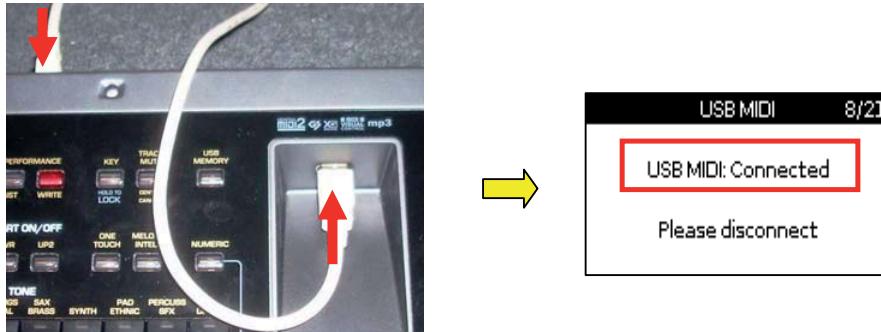

3. Disconnect the MIDI cable from BK-5 **MIDI IN** and **MIDI OUT** and verify that the display shows “**Disconnected OK**”.
4. Press **[START/STOP]** button to go to next test.

7. USB MIDI check

The display shows:

USB MIDI	8/21
USB MIDI:	-----
Please connect	

1. Connect the USB cable from **USB COMPUTER** socket to **USB MEMORY** socket.
2. Verify that the display shows “**Connected**”.

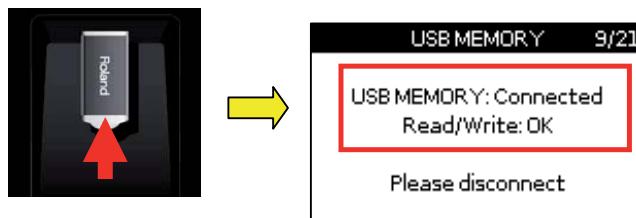

3. Disconnect the USB cable and make sure the display shows "Disconnected OK".
4. Press [START/STOP] button to go to next test.

8. USB MEMORY check

The display shows:

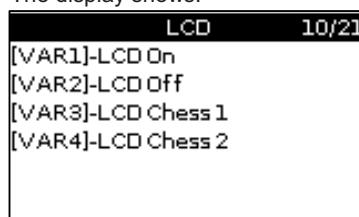

1. Connect the USB Memory (like ROLAND M-UF2G) to **USB MEMORY** socket.
2. Verify that the display shows : **USB MEMORY "Connected"** and **READ/WRITE: OK**.

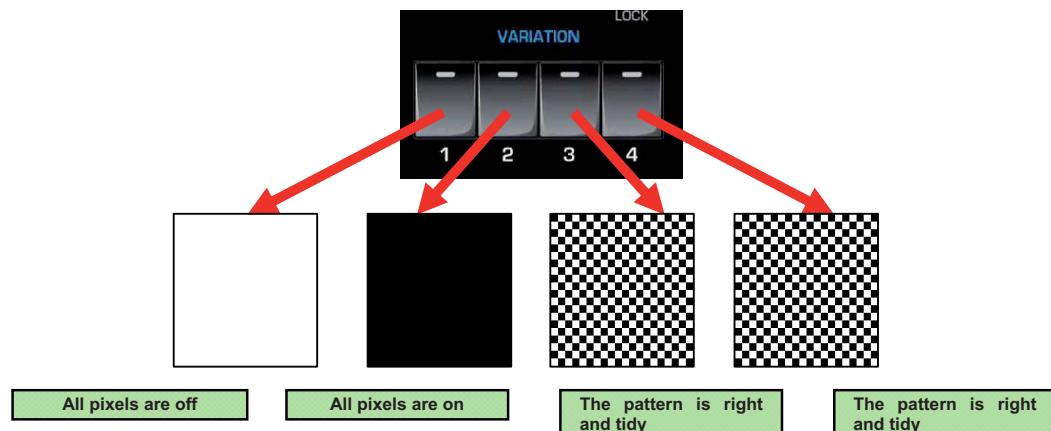

3. Remove the USB Memory and make sure the display shows: **USB MEMORY "Disconnected OK"**.
4. Press [START/STOP] button to go to next test.

9. LCD check

The display shows:

1. Press the following four switches and check the related display-LCD condition:

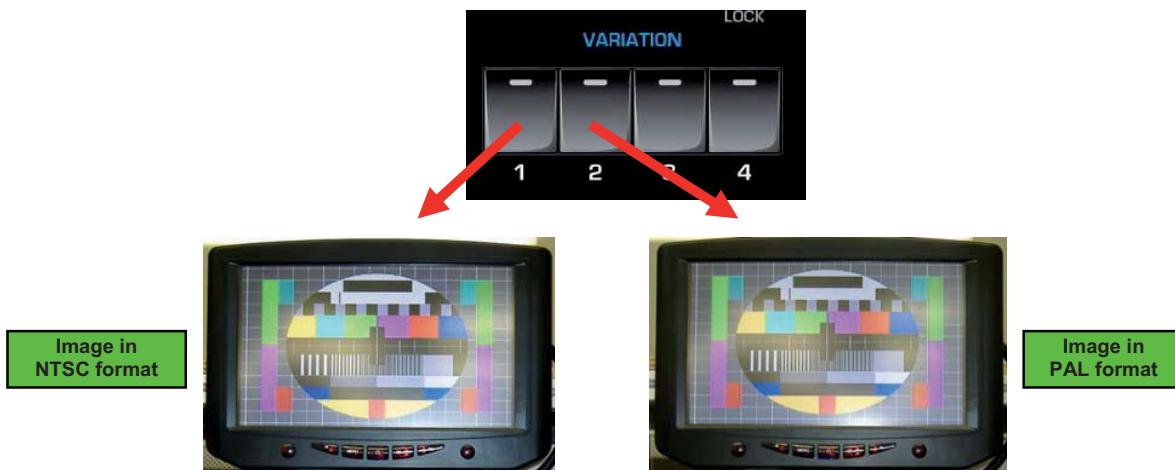

2. Press [START/STOP] button to go to next test.

10. Video out check

The display shows:

Press the following two switches and check the related external Monitor images as follows:

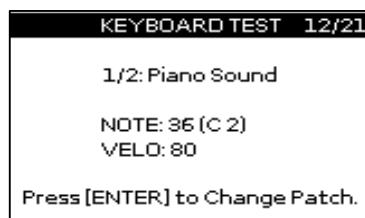

Note:

The two image types (NTSC or PAL) are almost the same. The only difference is that the PAL type is a little bit squashed than the NTSC type, so carefully check this difference.

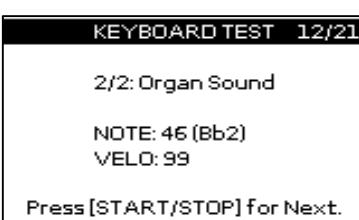

2. Press [START/STOP] button to go to next test.

11. Keyboard check

The display shows:

1. Move the **MASTER VOL** knob to the maximum position.
2. Verify that all keys produce a sound.
Press the keys lightly and strongly, verifying that the sound volume changes accordingly.
3. Press the switch **ENTER** to go ahead

4. Press all keys (one by one) exerting a MEDIUM pressure; for each pressed key you will hear a musical note with the same volume Intensity
5. Press [START/STOP] button to go to next test.

12. Speakers check

12.1 Speakers separation check

The LCD display shows:

1. Check the sound (1Khz Sine wave) coming out only from Left Speaker with right intensity according to **VOLUME** position.
2. Press the switch **ENTER**; the LCD display shows:

3. Check the sound (1Khz Saw wave) coming out only from Right Speaker with right intensity according to **VOLUME** position.
4. Press the switch **ENTER**; the LCD display shows:

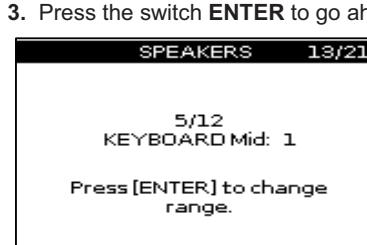

5. Check the sound (1Khz Sine wave) coming out from both Speakers with right intensity according to **VOLUME** position.
6. Check the **VOLUME** potentiometer changes smoothly and, at the minimum position, the sound is completely nil.

12.2 Speakers flutter check (sweep test)

1. Move the **VOLUME** potentiometer to center (12 o'clock) and press the switch **ENTER** to go ahead (**Keyboard Low Range Test**):

2. Confirm a bass-range sine wave (with up and down changes in pitch) is output from speakers and that the speakers audio is free of flutter
3. Press the switch **ENTER** to go ahead (**Keyboard Mid Range Test**):

4. Confirm a mid-range sine wave (with up and down changes in pitch) is output from speakers and that the speakers audio is free of flutter
5. Press the switch **ENTER** to go ahead (**Keyboard High Range Test**):

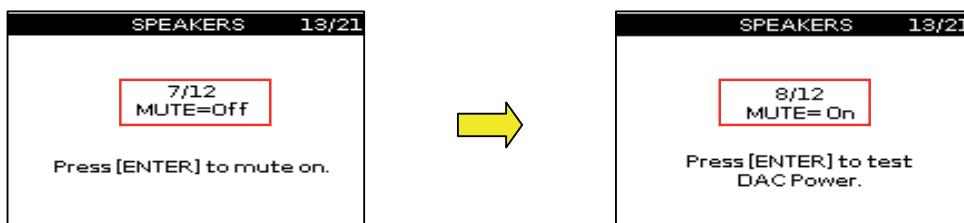

6. Confirm a treble-range sine wave (with up and down changes in pitch) is output from speakers and that the speakers audio is free of flutter.

Note: The following three operations allow more detailed inspection.

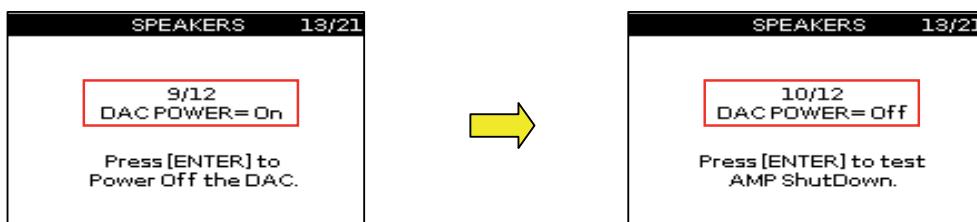

- Pressing the switch **<** makes the pitch-changing stop; pressing it a second time resumes.
- Pressing the switches **▲** or **▼** while operation is stopped allows fine adjustment of the pitch.

12.3 Speakers mutes check

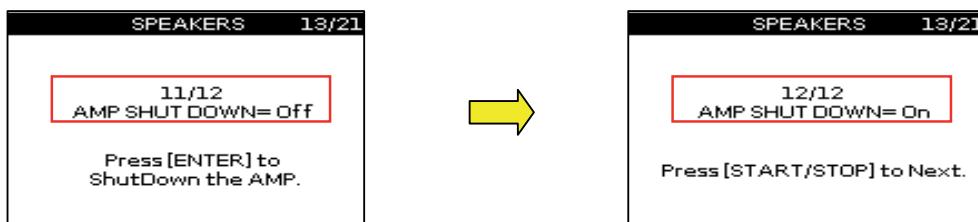

- Press the switch **ENTER** and check the sound coming out from both Speakers.
- Press the switch **ENTER** and check the sound on the speakers is completely nil (MUTE test).

- Press the switch **ENTER** and check the sound coming out from both Speakers.
- Press the switch **ENTER** and check the sound on the speakers is completely nil (DAC POWER test).

- Press the switch **ENTER** and check the sound coming out from both Speakers.
- Press the switch **ENTER** and check the sound on the speakers is completely nil (AMP SHUT DOWN test).

- Press **[START/STOP]** button to go to next test.

13. Phones socket check

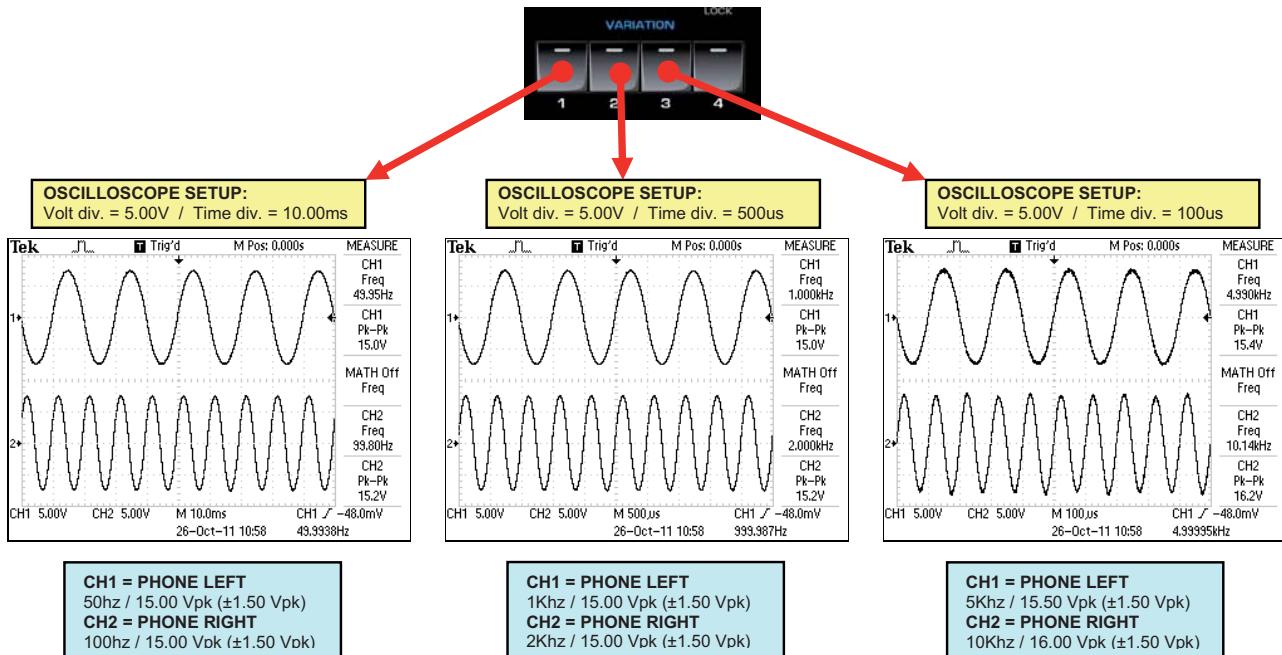

The display shows:

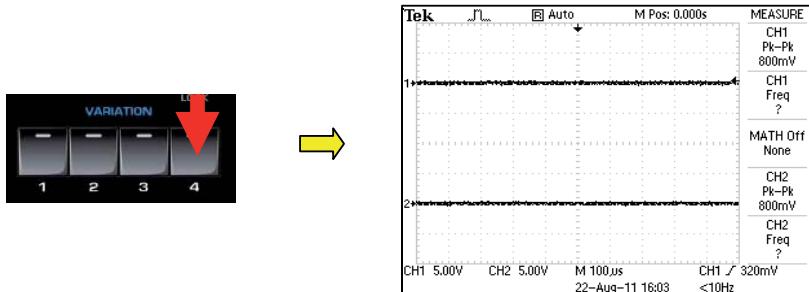

Setting:

Connect the BK-5 **PHONES** to oscilloscope's CH1-CH2 inputs (by means of a STEREO AUDIO CABLE).

- Press one by one **[VARIATION 1]** **[VARIATION 2]** **[VARIATION 3]** buttons and check the following values on the oscilloscope:

- Keep [VARIATION 4] button pressed and make sure the waveforms are completely nil.

- Repeat all measures on the second PHONES socket.
- Press [START/STOP] button to go to next test.

14. Output L/R sockets check

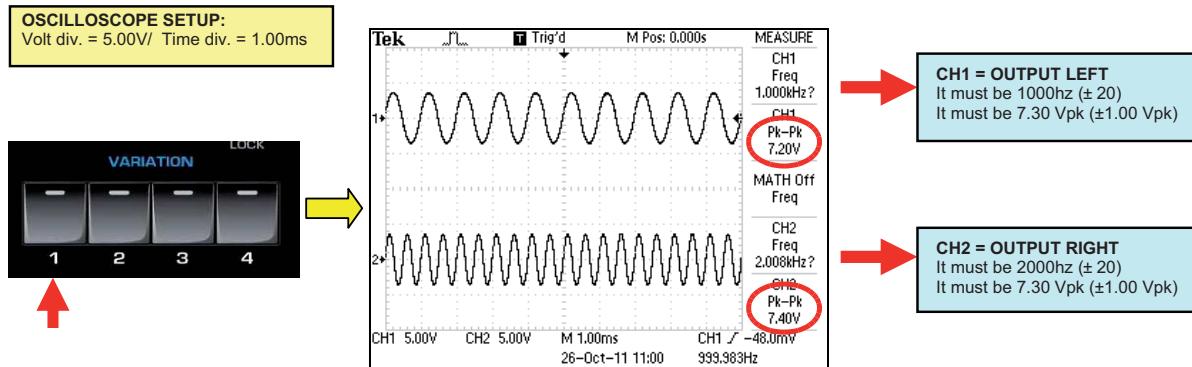

The display shows:

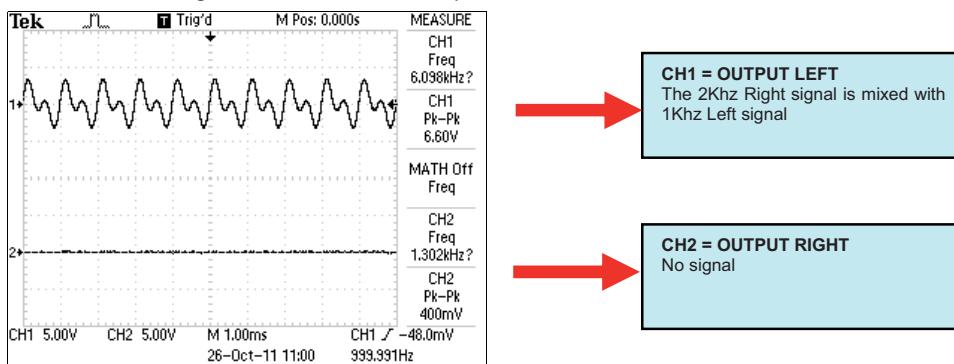

Setting:

Connect the BK-5 OUTPUT L/R to oscilloscope's CH1-CH2 inputs (by means of 2x Mono Audio cables).

- Press [VARIATION 1] button. Check the following values on the oscilloscope:

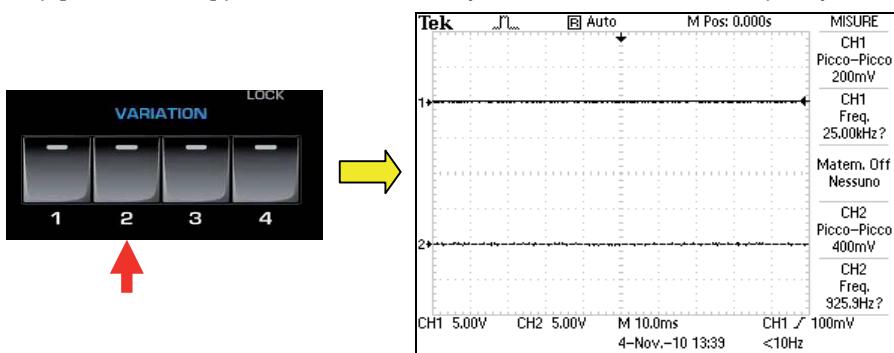

2. Remove jack from **OUTPUT R** and make sure the Right channel is mixed with Left channel (Mono function);
Check the following values on the oscilloscope:

3. Insert again the jack into the BK-5 **OUTPUT R** socket.

4. Keep **[VARIATION 2]** pressed button and verify that the waveforms are completely nil:

5. Press **[START/STOP]** button to go to next test.

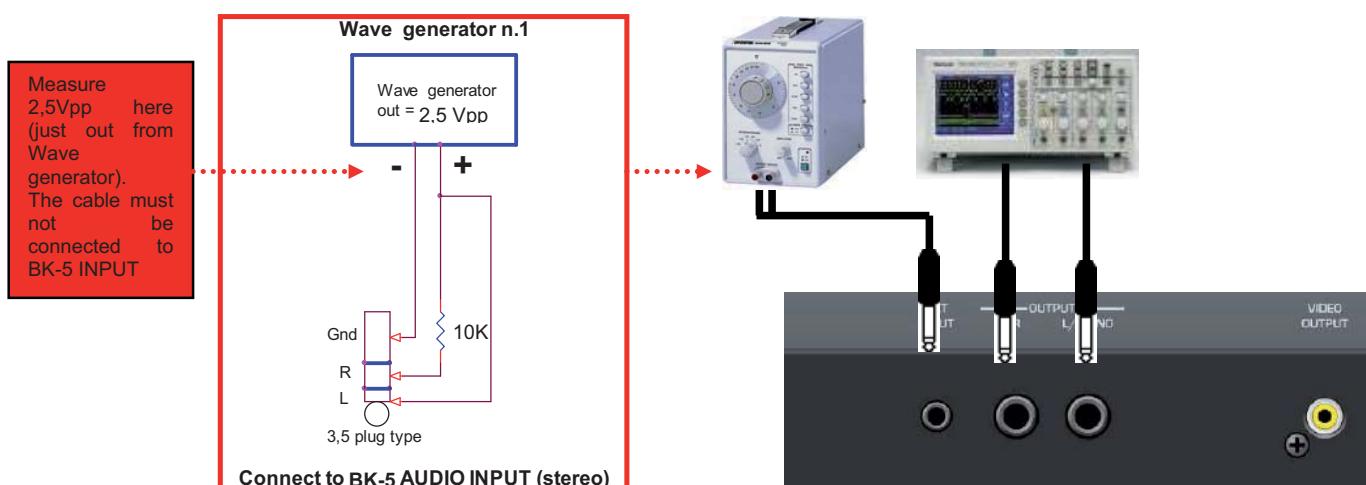

15. Audio Input socket check

The display shows:

Setting:

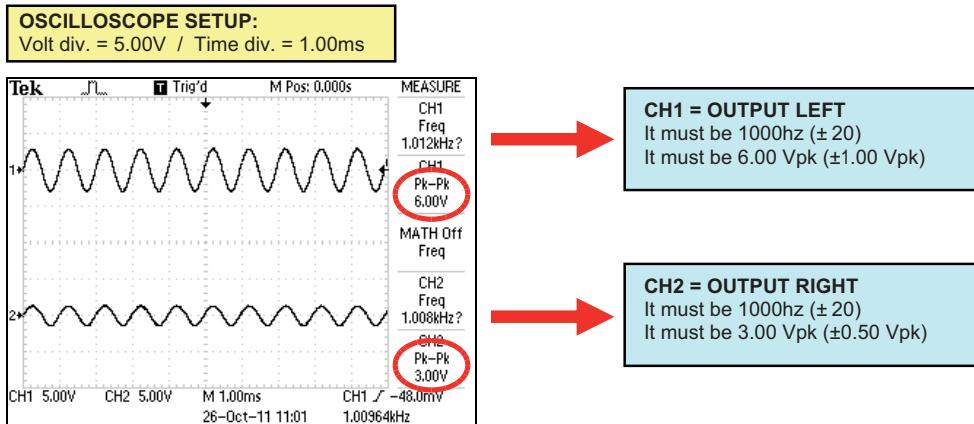

- Connect the n.2 Mono Audio Cables from BK-5 **EXT INPUT** to the Waveform generator.
- Connect the BK-5 **OUTPUT L/R** to oscilloscope's CH1-CH2 inputs.

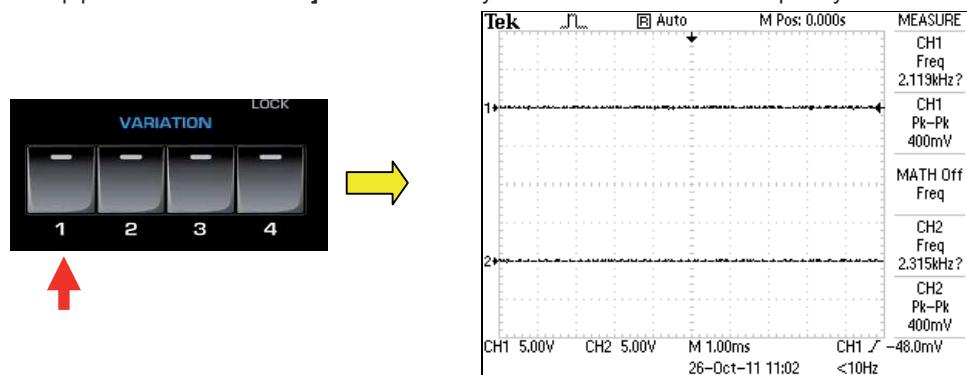

1. Produce following wave with external Waveform generator:

Wave generator OUT L: Freq =1Khz (sine wave) Amplitude=2,5Vpp (measured with cable not connected to BK-5)
 Wave generator OUT R: Freq =1Khz (sine wave) Amplitude=2,5Vpp (measured with cable not connected to BK-5)

2. Check the following values on the oscilloscope:

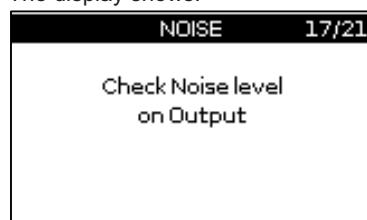

3. Keep pressed **VARIATION 1** button and verify that the waveforms are completely nil:

6. Press **[START/STOP]** button to go to next test.

16. Noise check

The display shows:

Setting:

- Remove all connections from BK-5 sockets.
- Connect the mono audio cable first from **OUTPUT L/MONO** then from **OUTPUT R** to Noise Meter's input.

1. Check the following noise level:

OUTPUT L/MONO : Must be Under -85dBm (Vrms, Din-Audio)
 OUTPUT R: Must be Under -85dBm (Vrms, Din-Audio)

2. Press [START/STOP] button to go to next test.

17. Memories and Devices check

1. The first group of tests automatically starts. Verify that OK is indicated as the check result.

DEVICE	18/21
NOR:	OK
SUB-CPU:	OK
SDRAM1:	OK
SDRAM2:	OK
SSC:	OK
SSC ERAM:	OK
WAVE:	OK

2. The second group of tests automatically starts. Verify that OK is indicated as the check result.

DEVICE CHECKSUM	19/21
BOOT:	OK
PROG:	OK
DATA:	OK
WAVE:	OK

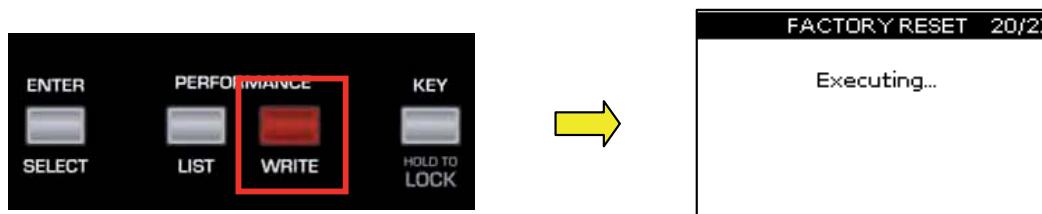

3. At the end of the sequence the test will automatically go to the next test.

18. Factory Reset and Auto Power off check.

The display shows:

FACTORY RESET	20/21
Please [WRITE] to execute	

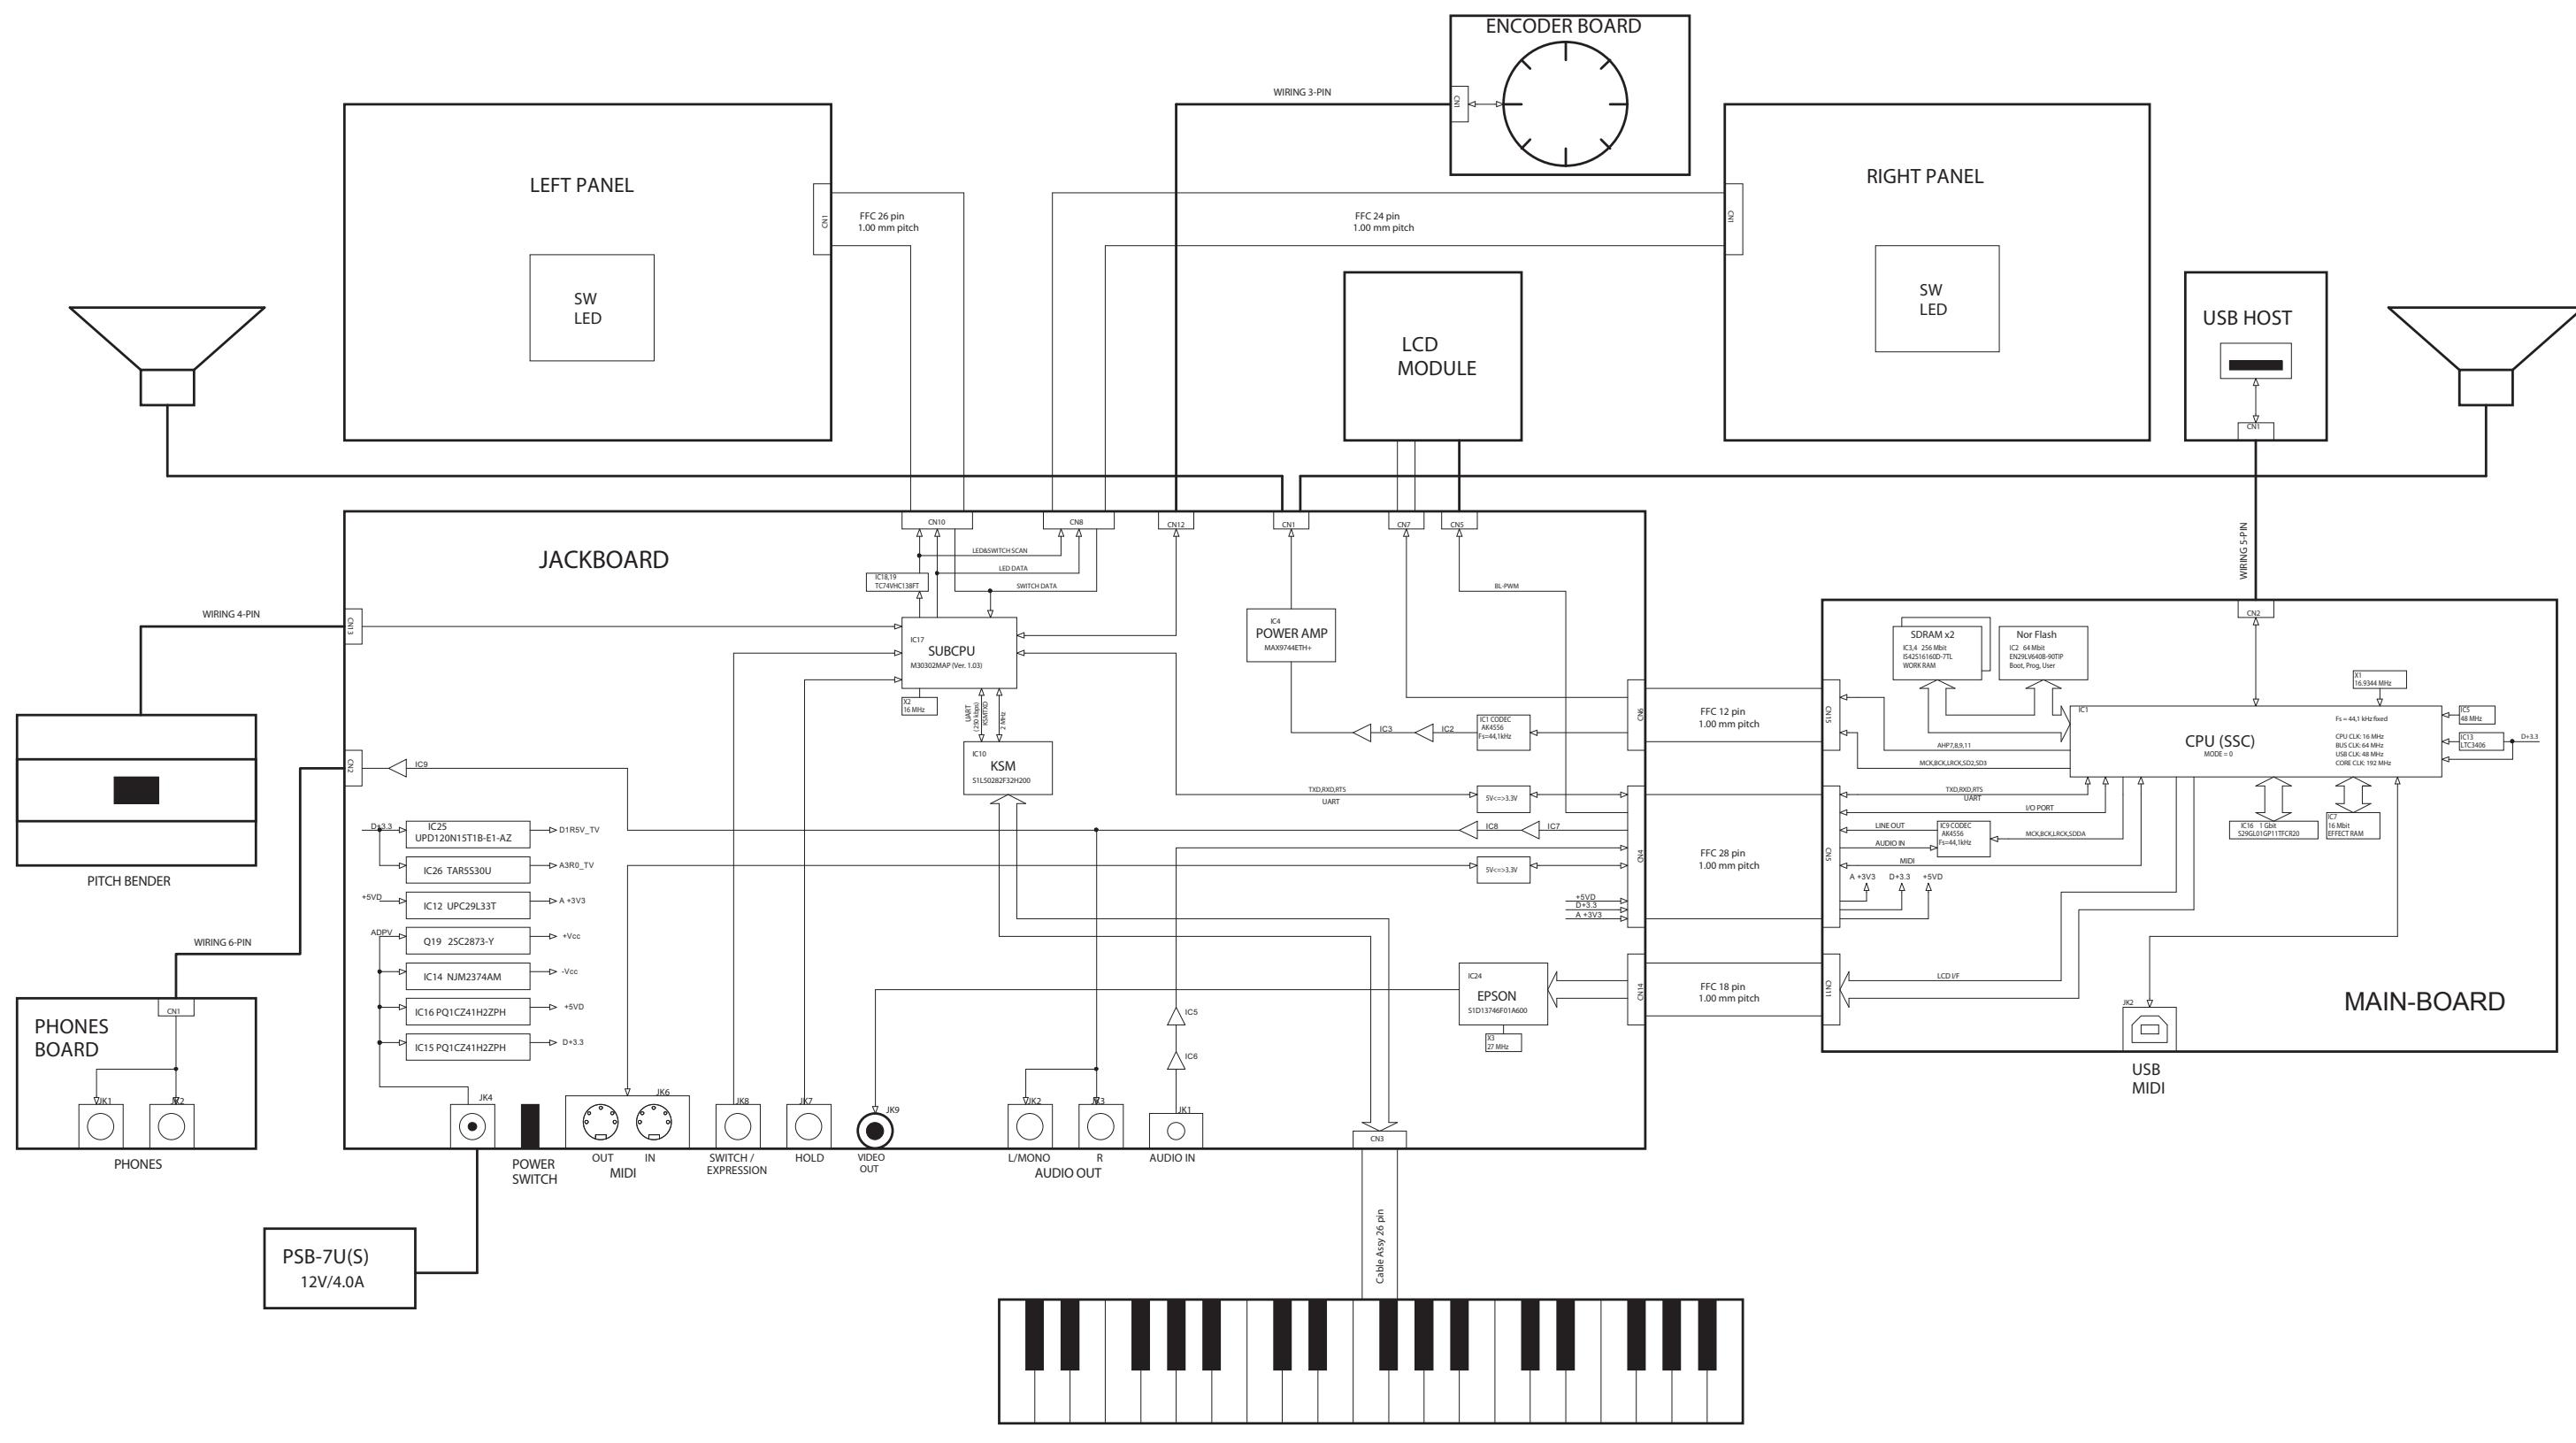

1. Press [WRITE] button to execute the Factory Reset.

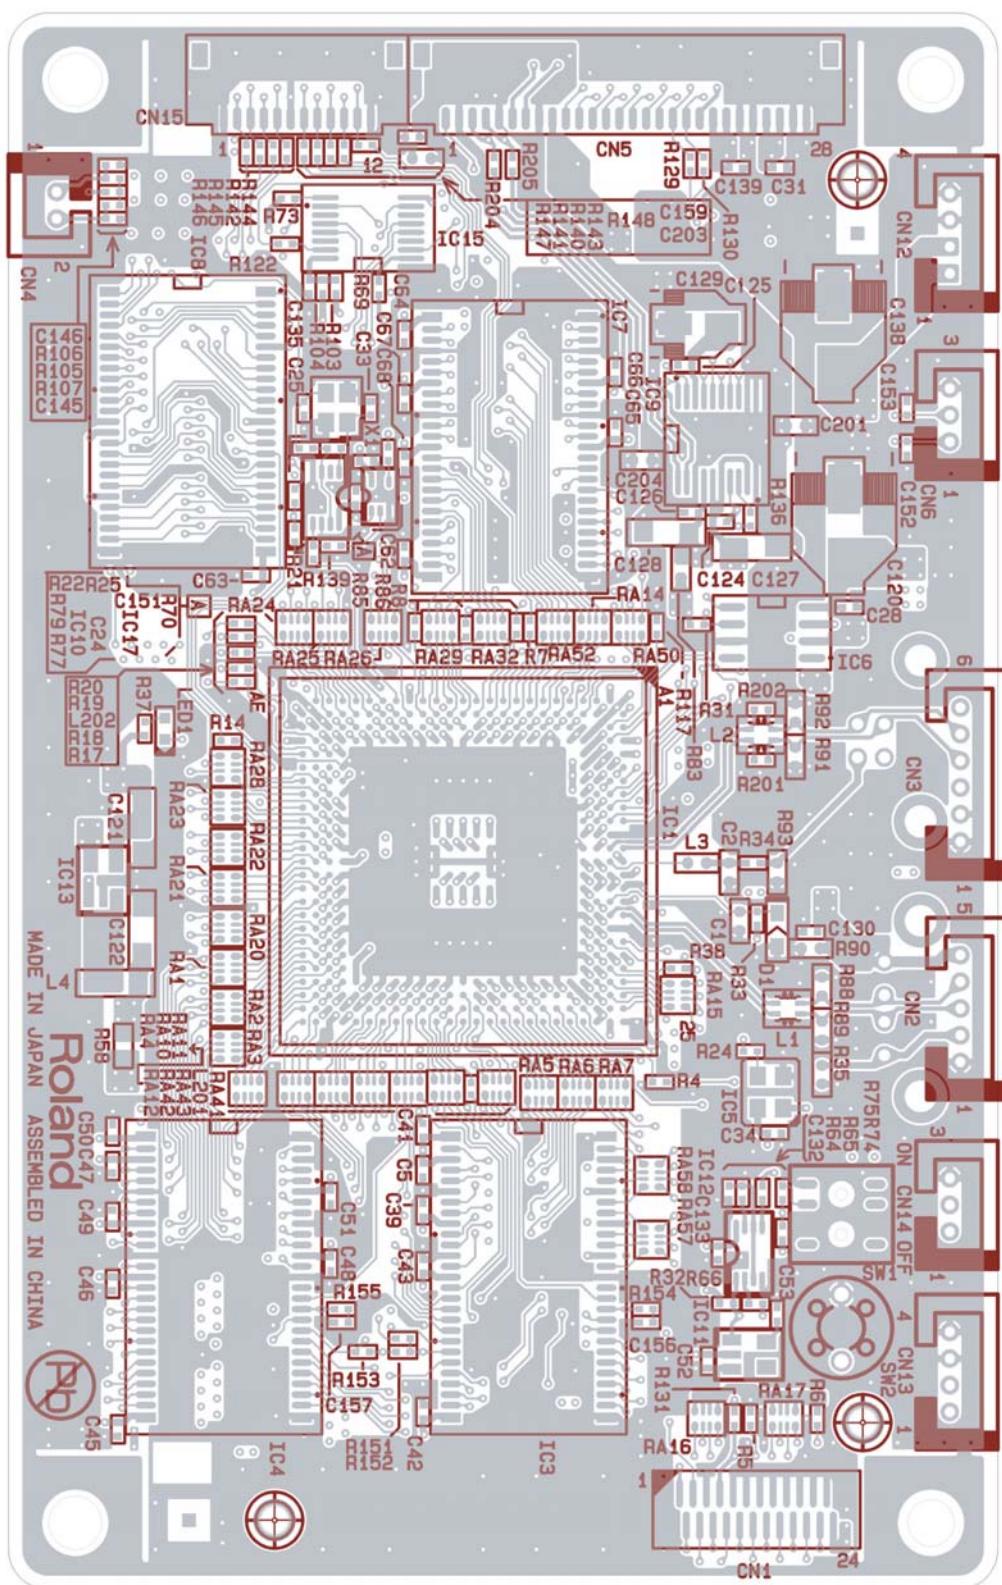

2. At the end the display shows:

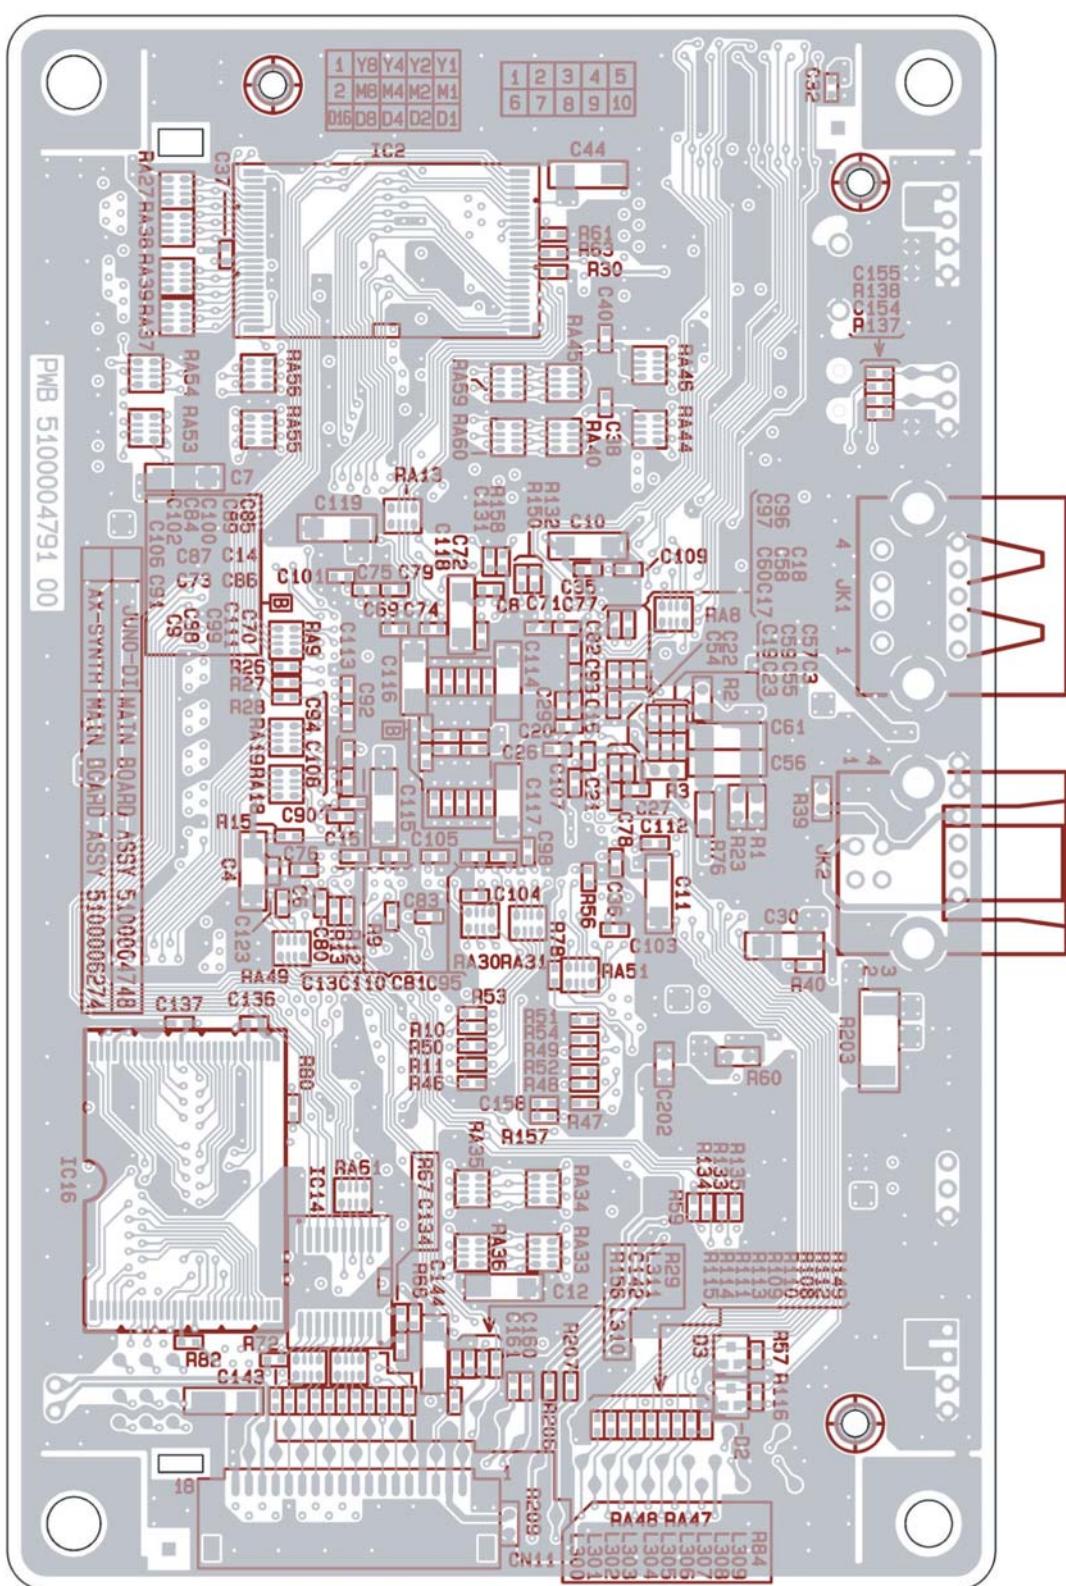

AUTO OFF	21/21
Press [ENTER] to Off the Instrument and Complete the Test.	

3. Press [ENTER] button and verify that the BK-5 will be switched off.
