Hello,

Welcome to MusicParts.Com, Inc. your online resource for technical documents and service information. This PDF package may contain information, schematics, parts lists, images, engineering changes, previous versions, circuit descriptions, and many other unique features about the product you have chosen. This document was assembled from a variety of sources and is the result of our many years in the music repair business.

TECHTIPS: Unique to Musicparts documents are **TECHTIPS** located in critical areas on the schematics. They contain useful information about that area of the schematic such as common problems that we have found and recommended changes. Not all documents will have TechTips.

NOTE: Large original over-sized drawings will need to be taped together. We feel this is better than reducing them and losing fine details.

VIEWING: This document is utilizing PAGE-ON-DEMAND downloading. This will let you navigate to any page without waiting for the entire file to download.

PRINTING: For the best quality, we highly recommend when the print dialog appears, make sure "**print as image**" is CHECKED, & that "**shrink oversized pages**" is UN-CHECKED. Also please stay online while printing this document to make sure you get all the pages.

MusicParts.Com Special Notes

Copy Quality Concerns

Yes, we know it's hard to read!

The original quality of these documents were poor and marginal to begin with, unfortunately this was what the manufacturer sent out to it's service centers.

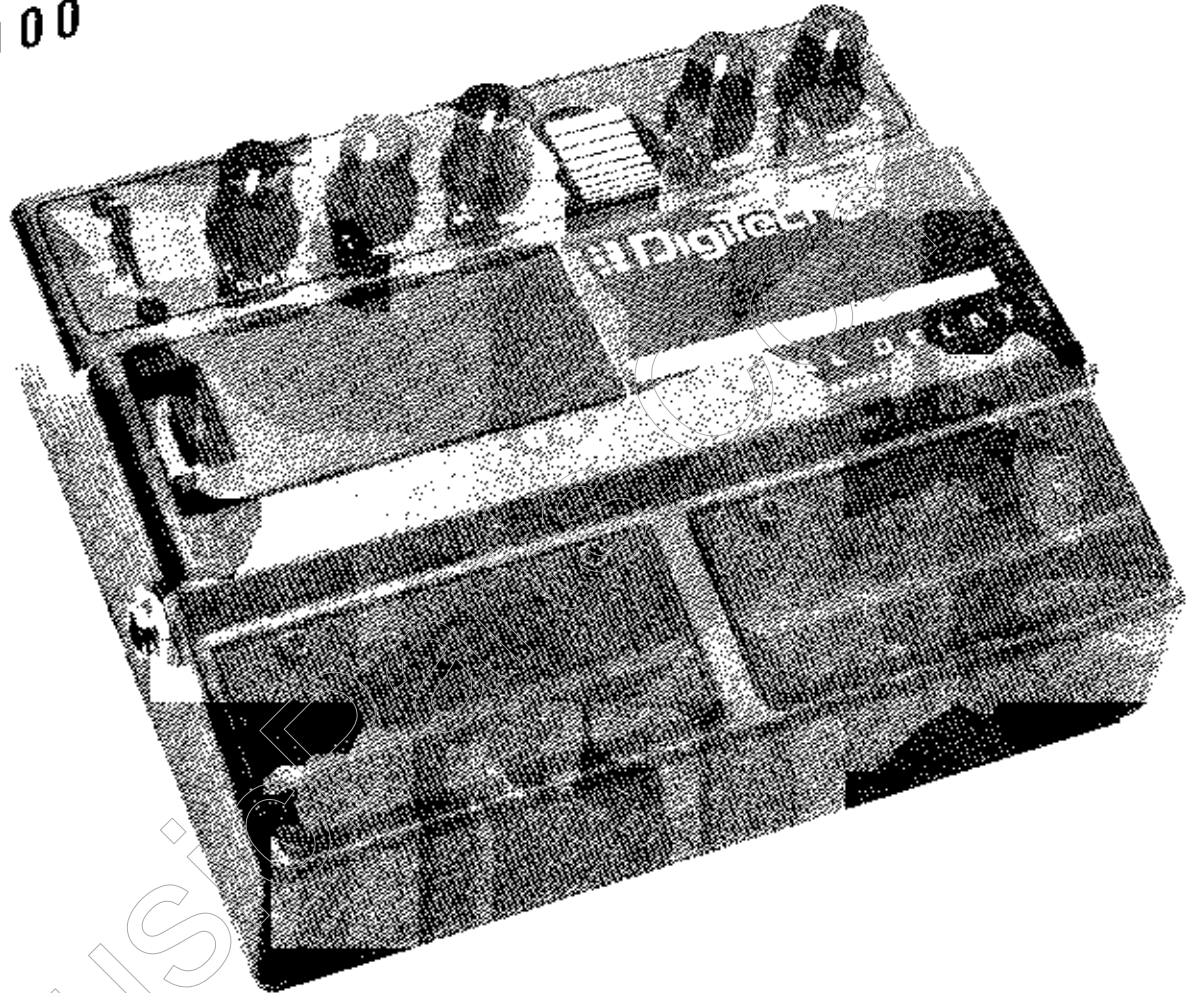

It is not as a result of our scanning techniques.

We suggest using a laser printer to print them out.

Thank You,
